SUZOHAPP

SUZOHAPP is a technology company with over 50,000 gaming, amusement, sport betting, lottery and bingo products for casino operators and gaming OEMs. Products include LCDs, sport betting solutions, toppers, hoppers, locks, coin/bill/reel mechanisms and buttons/decks. SUZOHAPP is also a leading software and hardware supplier of complete cash management solutions typically found anywhere from cashier cages to large-scale back office operations. SUZOHAPP is a global company with offices in 19 countries serving over 25,000 customers with regional delivery, local support and quick customization.

Global Reach

SUZHOP is a global company with a worldwide presence and a diverse workforce. SUZHOP has grown rapidly to meet the needs of the markets, expanding the breadth of its product offering and service capability. Its best-in-class product and service offerings create significant value and operational efficiencies for customers all over the world.

- International coverage through national subsidiaries
- Worldwide presence with a global service network
- Distribution partners all around the globe
- Variety of customers across multiple business segments

Around The World & Around The Corner

In addition to the offices and manufacturing sites located on the map, SUZHOP has strategic partnership agreements with Value Added Distributors, Gaming Channel Partners, and Contract Service providers in those regions where market or license conditions dictate.

Your Strategic Partner

SUZHOP's logistical support and supply chain configuration builds on its total value proposition by providing customers with cost saving delivery "From Our Door to Your Production Floor". Through continuous communication and feedback, the SUZHOP supply chain team works closely with customers and factories to maintain a steady product supply while eliminating costly additional inventory. We are firmly committed to providing the best customer service to all customers.

Manufacturing Capabilities

Adding Value Through Manufacturing

SUZOHAPP continually improves its engineering, manufacturing, service and distribution capabilities to meet the needs and exceed the expectations of its valued customers. With many years of industry experience and production excellence, SUZOHAPP has developed innovative customer-centric engineering and manufacturing processes.

SUZOHAPP designs and manufactures products that are used extensively in Gaming and Amusement devices as well as in demanding Industrial, Vending, and Transportation applications. In-house design, development and production resources located in multiple SUZOHAPP facilities, ensure that projects are efficiently taken from concept to completion.

DESIGN & ENGINEERING

Design & Prototyping

Equipment

- CAD workstations
 - Pro/Engineer
 - SolidWorks
 - AutoCAD
- FDM prototyping machine (3D printing technology)

Capabilities

- Quick turn-around
- In-house prototyping

Resources

- 30 Engineers
 - Electrical
 - Mechanical
 - Software

LCD, TOPPERS & KIOSKS

LCD Production

Equipment

- Integrated toppers
- OEM open frame
- LCD integration
- Signage & custom assemblies
- Bid specification & RFQ

Capabilities

- 20,000 pieces per year

Resources

- 3 Engineers

PLASTIC INJECTION, TOOL & DIE

Direct Injection

Equipment

- 5 - CNC mills
- 5 - Lathes and grinders
- 1 - Wire EDM
- 28 Injection machines

Capabilities

- Sizes from 25-1,600 tons
- 20 million pieces per year
- 24-hour operation
- Insert & over-moulding
- Design to first shoot within 10 days
- 15 tools per month

Resources

- 65 dedicated staff
- +35 flex staff

PCB PRODUCTION

PCB Production

Equipment

- SMT high speed moulder
- SMT inspection
- Wave solder

Capabilities

- Surface mount
- Through-hole
- 150,000 boards per month

Resources

- 25 dedicated staff
- +15 flex staff

ASSEMBLY

Assembly

Equipment

- 12 - Conveyor lines
- 30 - Workstation cells

Capabilities

- 50 assemblies per hour, per line/cell
- Service and Repair
- Assemblies with up to 1,000 components

Resources

- 100 dedicated staff
- +100 flex staff

QUALITY ASSURANCE

Quality

Highlights

- ISO 9001
- Testing services and capabilities

Resources

- 30 FTEs in area of quality control and assurance

Manufacturing and Distribution Facilities

Manufacturing Site China

- Zhuhai, China
- 12,000 sqm
- 250 employees
- Turnkey design / manufacture
- Interactive touch displays
- Transparent LCD technologies
- Cash handling technologies
- Printers, card/barcode readers, NFC/RFID, cameras
- Kiosks, loyalty and betting terminals
- Digital signage
- LED lighting and back lighting technologies

Manufacturing and Distribution Site North America

- Mount Prospect, IL and Las Vegas, NV production locations
- Over 6,000 sqm
- Assembly, Distribution, Service and Support
- Cash Management Solutions: Note recyclers, coin recyclers, deposit safes
- Components & OEM: Joysticks, buttons, coin doors, LCDs, reel mechs, toppers, game controls

Manufacturing Site Poland

- Poznan, Poland
- Over 5,000 sqm
- 60 employees
- Components: Coin validators, coin recyclers
- Solutions: Change machines, cash points for self-service laundrettes, car wash starter systems, cash handling solutions

Assembly and Logistics Hub Netherlands

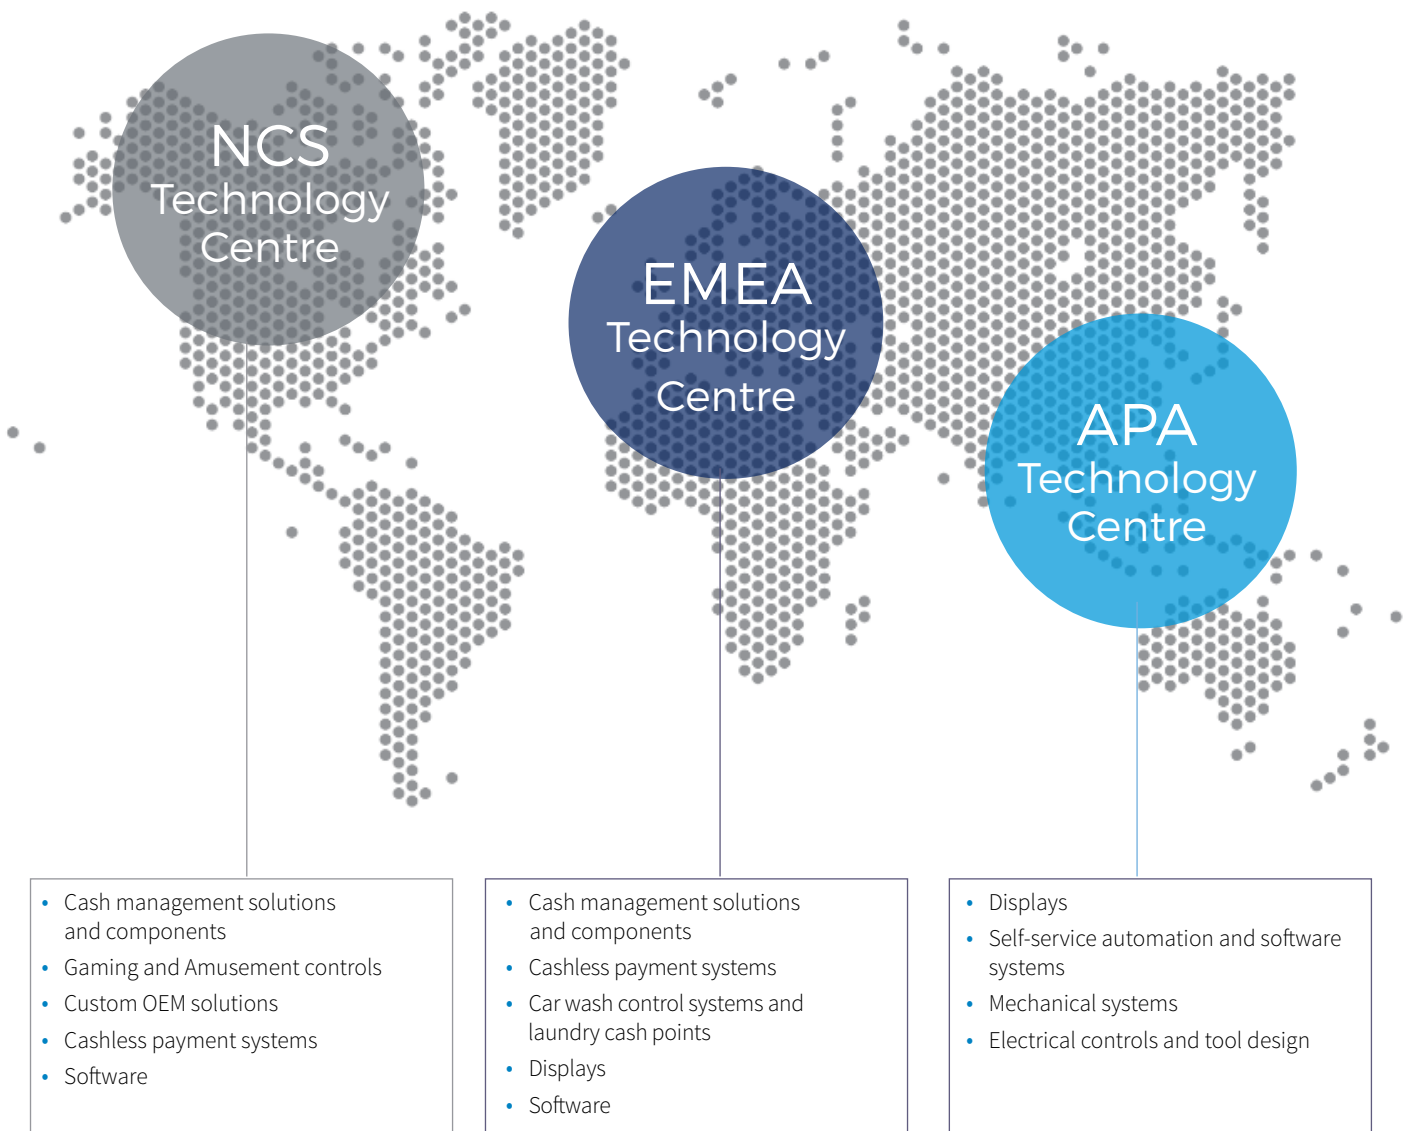

- Oud-Beijerland, Rotterdam
- 49,000 sqm
- Fully bar-coded warehousing
- Real time data processing systems
- Accurate reporting of inventory
- Excellent customer service

R&D Capabilities

Investment in research and development is a top priority

Global product management teams meet continuously to develop new products and custom solutions for customers' ever-changing needs. Dedicated industrial, mechanical, and electrical engineering teams provide complete design, as well as component selection. SUZOHAPP utilizes contemporary modelling technology to produce accurate designs with competitive costs and short lead times.

Technology Centres

SUZOHAPP's Research & Development team is centralized into one global engineering centre of excellence, SUZOHAPP Technology Services (STS). This highly skilled department develops and supports the company's core technology, accelerates new product development and leads the introduction of innovative technologies.

Design activities and expertise provided include:

- Turnkey design/manufacture of individual parts to complete machines - from concept development through final, highly engineered solutions
- 2D and 3D CAD Design – using SolidWorks for part/assembly modelling and drawings
- Metalwork/plastic design and electrical/wiring harnesses, virtual and physical prototyping, and product renderings
- Design of injection moulds and tooling
- Rapid prototyping through in-house 3D printing capabilities
- Proprietary electronics and PCB Design using the leading software package Altium
- Programming for microprocessors and Advanced Risk Machines (ARM), software development in most operating systems including Windows, Linux and Android OS
- Compliance testing and documentation, including UL

Examples of some of the technologies SUZOHAPP works with:

- The latest LCD and touchscreen technologies, including projective capacitance
- LED lighting and back lighting technologies
- Embedded micro controllers and CPUs
- Electromechanical and mechanical systems

SUZOHAPP's dedicated team has been central to the success of many product deployments to the global amusement, gaming, industrial, transportation and vending markets.

Projects have included:

- LCD retrofit integration
- Custom designed displays, including transparent LCD technology
- Interactive touch displays, large and small
- Cash handling technologies
- Printers, card/barcode readers, NFC/RFID, cameras
- Kiosks, loyalty and betting terminals
- Digital signage

Workshop Service

Highly experienced lab technicians can repair parts to component level, utilizing the latest diagnostic equipment and techniques. SUZOHAPP can also redesign, re-engineer, restore or re-manufacture parts and components reducing your business maintenance costs.

Repair Services

- Electronic gaming machines
- Jackpot systems and player tracking hardware
- POS systems, ATMs, self-service terminals
- Cash handling – bill acceptors, coin mechanisms, hoppers
- Data scanners, PDAs, PC mainboards, logic boards
- LCD displays, touchscreens
- LCD and CRT monitors, power supplies
- Electronic assembly and manufacturing services
- Electronic kiosks
- Wagering terminals
- Other electro-mechanical assembly work

SUZOHAPP technicians are highly skilled

- IPC certified specialist technicians ensure the highest quality in surface mount, hole through and wave soldering
- Experienced in repairing multilayer boards
- Ability to perform circuit programming (FPGA, JTAG) and program microprocessors (TQFP, SSOP, EPROM)

SUZOHAPP technical experts:

- Re-work and re-flow BGA ICs
- Give logic boards, main boards and A-D boards a new lease on life
- Refurbish circuit boards for most popular gaming machines and electronic equipment
- Repair bill validators, ticket printers, hoppers and coin mechanisms, giving considerable savings compared to the cost of replacement

Field Service

SUZOHAPP can provide service contract cover for your equipment or systems, supported by our field service team. Service contract customers have the ability to log calls with our service centre and receive on-site support, with all parts and labour charges covered, for a single annual fee.

No matter if you have a large number of our products, or just one odd note counter to count your daily takings, we can always offer you a suitable type of support.

We offer a range of support options, so let's go through your support needs together. It is possible you have some equipment that is crucial for your business, and therefore might need extra attention than the regular equipment. Our support options can be customised to fit your needs accordingly, which means that you will only pay for what you really need.

We specialize in Coin & Note acceptor reprogramming and Comestero Changer servicing. Perfect for:

- Users that operate equipment on a regular basis and need the equipment up and running
- Users that want an all inclusive support and service package

High Quality LCDs for Gaming, Amusement, Sport Betting, Lottery, and Bingo

Touch and Non-Touch

VisionPro™ is SUZOHAPP's premium line of LCDs using top panel brands and high-quality boards. Fast customization is available for both OEMs and upgrades: 6.2" to 90", specialized panels and integration, customized metal, touchscreens and inputs.

Features:

- ✓ Standard sizes from 15" to 32"
- ✓ Choice of
 - 10+ touch Projected Capacitive (PCAP), true-flat, seamless edge-to-edge glass
 - 3M Surface Capacitive (SCAP) touch technology
 - Protective Glass
- ✓ Standard and wide viewing angle units available
- ✓ Common footprint for touch and non-touch variations
- ✓ DVI and VGA, HDMI and DisplayPort available
- ✓ LED options for surrounding display
- ✓ Economically priced
- ✓ 1-year standard warranty

| 1 Size | 21.5" | 23.8" | 27" |
| 2 Design | <ul style="list-style-type: none"> • Integrated for mounting monitor flush inside your cabinet | <ul style="list-style-type: none"> • External for floating monitor outside your cabinet with halo effect | |
| 3 LEDs | <ul style="list-style-type: none"> • RGB solid colour, 12V without IC | <ul style="list-style-type: none"> • Addressable individually driven, 5V with IC | |
| 4 Touch or Non-Touch | <ul style="list-style-type: none"> • 10-touch PCAP | <ul style="list-style-type: none"> • Non-touch 3mm tempered glass | |

FEATURES

- ✓ Rigid high-quality PCB-mounted LEDs, no adhesive strips, no hotspots
- ✓ True-flat design
- ✓ FHD 1920x1080, WVA 178° x 178° for landscape or portrait usage
- ✓ 21.5"/23.8": 250 cd/m², 1000:1
27": 300 cd/m², 3000:1
- ✓ 10-touch PCAP for Windows 7 or later, Linux 4.4 or later
- ✓ VGA + DVI standard, HDMI and DisplayPort available
- ✓ 12V DC or 100-240V AC (brick optional)
- ✓ Operating temperature: 0-50 °C
- ✓ CE, RoHS
- ✓ Drawings and CAD files available on request
- ✓ Customization possible

2 Design

Integrated Design

For mounting monitor flush inside your cabinet. Accent your display with a frame of colour.

External Design

For floating monitor outside your cabinet. Surround colour in front, side, rear for a halo effect.

Elo Touch Solutions Open Frame Gaming Monitors

Brilliant Display. Superior Quality. Competitive Price.

Engineered and designed specifically for the demanding requirements of the gaming industry, the 90-Series open-frame displays feature touch technology that is built-in rather than glued-on. Elo is the world leader in commercial touch with over 20 million installations, half a million units per years, nearly 2,000 units per day.

Select from a wide range of sizes from 10" to 27" to fit in any gaming environment. Other Elo products extend the range to 70".

Only Elo produces the touchscreens, controllers, drivers, and monitor for a complete solution proven in 10,000s of gaming installations.

Take advantage of these great features:

- ✓ Next generation Projected Capacitive (PCAP) 2GS technology (2 glass solution)
- ✓ Highest optical quality and longevity as no plastic films, no metal mesh
- ✓ 10-touch true-flat solution
- ✓ Thru-glass mode which operates through up to 6 mm customer-supplied glass
- ✓ Common mechanical and electrical components across the line for easy design-in, compliance testing, service, and transition between sizes
- ✓ HDMI, DisplayPort, VGA inputs, with common port design across all units
- ✓ Built-in watertight edge seal
- ✓ Magnetic tethered OSD control box
- ✓ Unique field-replaceable touchscreen glass design
- ✓ Global agency approvals: United States UL, FCC; Europe CE TÜV; Australia RCM; Canada cUL, IC; China CCC; Japan VCCI; Korea KCC; Mexico CoC; Taiwan BSMI; International CB; RoHS
- ✓ Passes UL and IK07 Ball Drop tests
- ✓ 50,000 hour demonstrated MTBF
- ✓ 3-year standard global warranty

New sleek finished enclosure

| Model | Diagonal size | Aspect ratio | Contrast ratio | Brightness (panel) | Viewing angle | Native resolution |

10" to 27" desktop touchmonitors, All-in-Ones and interactive digital signage from 10" to 70"

SUZOHAPP also distributes the complete line of Elo Touch Solution products — seen in cashier cages, sports betting outlets, and on the gaming floors in top casinos around the world. Monitors and All-in-Ones for front/back office, interactive digital signage, bingo, lottery, sport betting, player tracking, loyalty systems and POS.

SH1950 Video Topper

19.5" high viewing angle panel with LED back light

The SH1950 Video Topper consists of a 19.5" wide viewing angle panel with LED back light, VGA or DVI cable out, 12V input and can be equipped with a black or chrome bezel. The sides have RGB illumination covered by an acrylic front plate. The SH1950 Video Topper and Edge Lit Topper are manufactured in SUZOHAPP China, in accordance to the highest standards. Final assembly, as well as customizations are done at a regional production facility.

The SH1950 Video Topper is a great addition to every cabinet!

19.5" high viewing angle panel with LED back light (optional without LCD to be used as a light box)

RGB Mini Topper

- ✓ Whole unit operates on a safe 12Vdc
- ✓ Different attract modes in a program such as twinkling, full on, rotating left to right and right to left, filling rotation etc
- ✓ Standard supplied with 32 bright white LEDs (7 different light brightness selections on the topper control board)
- ✓ Standard supplied with bright chrome bezel
- ✓ Mounting location and through holes for tower lights in the top of the body
- ✓ Flat, angled or radius base options for different cabinet configurations, easy mounting with two threaded studs
- ✓ Metal mounting bracket available for mounting on existing tower light fitting holes, to be used in conjunction with mounting bracket

RGB Polygon Topper

- ✓ Completely backlit thanks to bright white LEDs
- ✓ Includes tower light with colour foils
- ✓ On board PCB allows stand-alone operation or synchronization of up to eight topper boxes
- ✓ Seven pre-programmed flashing patterns
- ✓ Different attract modes including full on, rotating left to right and right to left, flashing and more
- ✓ Optional mounting base available
- ✓ Artwork not included

RGB Tower Light Topper

- ✓ Designed to be mounted on top of any standard round classic tower light
- ✓ Great for advertising special machine features such as Multi-Denomination, Ticket-In Ticket-Out, Hot New Game, Server Based Gaming, etc.
- ✓ Translucent bezel with 20 ultra-bright Nichia multi-colour
- ✓ RGB LED's provide light output for an elegant multi-coloured lightshow
- ✓ Pre-programmed with 8 unique flashing patterns and 7 different colour combinations
- ✓ Several optional base/cap adapters make it easy to use on other styles of tower lights

RGB Ellipse Topper

- ✓ On board PCB allows stand alone operation or synchronisation of up to 8 topper boxes
- ✓ Toppers can be synchronised to create unique patterns, for example a snake pattern that runs from one topper to the next
- ✓ 7 pre-programmed flashing patterns
- ✓ Different attract modes including twinkling, full on, rotating left to right and right to left, flashing and more
- ✓ Ultra bright LEDs guarantee unequalled light output for a spectacular multicoloured lightshow
- ✓ Backlit by 11Watt SL Lamp
- ✓ Translucent bezel contains 40 ultra bright nichia RGB LEDs for a multi-coloured light show
- ✓ Whole unit operates on 12VDC power
- ✓ Optional flat or radius mounting brackets with two mounting studs available to accommodate different cabinet configurations
- ✓ Body is constructed of black LL-94 VO ABS flame resistant plastic, color customisation available
- ✓ Tower Light and artwork panel not included

RGB Mini Topper

- ✓ Low profile to accommodate locations where ceiling height is a problem
- ✓ On board PCB allows stand alone operation or up to 8 toppers to be synchronized to work in a collective pattern
- ✓ Toppers can be synchronised using cables to create unique patterns, for example, a snake pattern that runs from one topper to the next
- ✓ Made of durable flame resistant UL-94 VO ABS plastics with chrome bezel
- ✓ Back lit by 11Watt SL Lamp
- ✓ Ultra bright LEDs guarantee unequalled light output for a spectacular lightshow
- ✓ Chrome bezel contains 32 bright LEDs
- ✓ 7 pre-programmed flashing patterns
- ✓ Different attract modes including twinkling, waves, fades and rollercoaster effects
- ✓ Whole unit operates on 12VDC power
- ✓ Optional mounting base (104-0025) and blank plexi panel (96-091500)
- ✓ Tower Light and artwork panel not included

RGB LED Light Strips

RGB LED Light Strip – 10 and 20 LEDs

- ✓ Light strips with opaque bezel contains bright multi colour LEDs and when mounted to your cabinet they provide a dazzling light show
- ✓ When used with RGB Xenon Topper it runs from the topper box into the light strips and back
- ✓ Light strip controllers provide 7 pre-defined colours and 7 pre-defined flashing patterns
- ✓ +12vdc Operation
- ✓ LED Light Strip Controller sold separately
- ✓ Wire harness sold separately

Dual-Sided LCDs Interior Signage

Perfect for casinos, table games, signage or other interior environments

With its stylish design the Dual-Sided LCDs displays are a slick way to share content, catching customers coming and going. Available in three distinct sizes to insure the perfect fit for your venue. The low power requirements allow the display to stand out just about anywhere. To eliminate dual graphic and multiple PC issues both displays are driven by a single HDMI signal source.

1 M[†] round pole with black bezel with added gold* edge featured

*Different outer and inner colour available upon request but MOQ's apply.
[†] Custom pole length and base mounting options available upon request but MOQ's apply.

Panels For Slot Machines

Superior lighting technology now used in Gaming and Amusement Industry!

CUSTOM SIZES AVAILABLE

- ▶ No hot or cold spots
- ▶ Illuminates from the sides of the frame and creates a smooth full light without bright spots and shadows that occur with traditional back-lit panels
- ▶ Restore your older machines with a new, modern look
- ▶ Each model is engineered specifically for the exact application
- ▶ Low heat generation saves life of entire machine while significantly lowering air conditioning costs to casino floor
- ▶ Light PRO LED panels offer energy savings from 60-80%
- ▶ No mercury contamination to the planet and low carbon footprint
- ▶ Green energy efficient LED technology
- ▶ Available in three shades of white: Warm White, 3500K; Cool White, 5100K; Daylight, 6000K
- ▶ 5 year typical lifespan

Dynamic Panel Systems

SUZOHAPP's Dynamic Panel Systems (DPS) feature the latest innovation in pushbuttons - all the adaptability of touchscreens with the tactile satisfaction of mechanical pushbuttons. We remove the limits of standard LCD pushbuttons in both shape and content, utilizing a single LCD with a unique fibre optic conduit to elevate the image to the surface of the injection moulded plastic lens cap. Easily program the entire deck at once with dynamic and configurable content allowing for unprecedented interaction between games and buttons as well as ease of transition between content.

Self-labeling buttons without the complexity or cost

Touchscreen flexibility, with familiar tactile feel

Optional illuminated RGB bezel

Confidence and speed of a physical button

Excellent visibility without glare or distortion

Interfaces: VGA, DVI-D or LVDS

Button interface is available in RS232 or USB

DisplayPort and HDMI are available upon request

Advantages

- ✓ Incredibly flexible – the display panel and buttons can be virtually any size to fit your cabinet and the buttons can be manufactured in any shape
- ✓ Innovative use of precision image transfer fibre optics
- ✓ Traditional tactile pushbutton feel
- ✓ Display graphics, text, animations, video, and even highlight error states with moving colour
- ✓ Add versatility and intrigue to games to attract attention

LCD Pushbuttons

The LCD Button unit is an innovative addition to the SUZOHAPP range for gaming devices, giving the game designer the additional tools to enhance the content and player of new gaming machine concepts.

LCD is integrated into the button and moves with lens cap

Light ring comes in a range of colours

Option to customize LCD decal surround (black standard)

24 frames per second animation

Full colour 128 x 128 pixels

USB interface, controller board controls up to 16 buttons

Chrome-Luminescent Pushbuttons

Polished chrome-plated button bezel with translucent colour washer moulded in bezel to provide edge luminescent effect. Available in several colour combinations of button & luminescent effect. Additional customization also available.

- ▶ Locking nut has special design to allow it to fit over “Snap-Tab” feature with microswitch installed
- ▶ Ease & flexibility of mounting to metal control panels using either the “Snap-Tab” or traditional locking nut
- ▶ Switch pre-assembled on button for reduced assembly time into control panel
- ▶ Subminiature microswitch provides additional clearance room under control panel
- ▶ Polycarbonate lens for optical clarity and durability
- ▶ Switch snaps on bezel of button eliminating the need to have separate lamp holder
- ▶ Grounded for ESD protection

Design Your Casino Chrome-Luminescent Pushbutton with the Matrix Below

| S = Size | C = Lens Colour | L = Luminescent Effect |
|---------------------|--------------------|------------------------|
| A = Large Square | 2 = Red | 2 = Red |
| B = Small Square | 3 = Amber (Orange) | 3 = Amber (Orange) |
| C = Large Rectangle | 4 = Yellow | 4 = Yellow |
| D = Small Rectangle | 5 = Green | 5 = Green |
| E = Large Round | 6 = Blue | 6 = Blue |
| F = Small Round | 9 = White | 9 = White |

Nut Sold Separately, Part number RBM-K730-001

STC Pushbuttons

STC Pushbuttons with Subminiature Microswitch designed to retrofit all existing VLT/Poker buttons which use a 22 mm square mounting hole. Available in 6 different colours: red, orange, yellow, green, blue or white.

- ▶ Designed to resist spills and sticking, for high reliability and long life, tested for 10 million+ cycles
- ▶ Standard supplied with spacer bezel for mounting on top or in the panel (low-profile)
- ▶ Small size, low profile, provides maximum player comfort
- ▶ Full 0.5 mm thickness on lamp terminals holds lamp or led connectors securely
- ▶ For use with 5 mm wedge base lamps or leds (not included)
- ▶ Standard fitted with Cherry DB5 style microswitch with 2.8 mm terminals for easy connection

RGB Illuminated Pushbuttons

Features

- ▶ 13 different display modes
- ▶ Top quality with a competitive price
- ▶ Magnificent lighting effects
- ▶ Simple installation
- ▶ Available in different colours

RGB Controllable Pushbuttons

Features

- ▶ Built-in RGB LED PCB - it can be controlled by LED driver with constant current output
- ▶ Built-in microswitch
- ▶ Made with highest quality raw materials
- ▶ Suitable to be used for various machines
- ▶ Over 10 million times reliability test for microswitch with gilded contact legs
- ▶ Connection options: 6pin connector, 110" terminal

Concave Round Pushbuttons

Features

- ▶ Special anti-scratch material - with stunning flashing vehicle baking finish appearance
- ▶ Built-in microswitch
- ▶ Top quality with a competitive price
- ▶ Suitable to be used for various machines

BL Spinner

Features

- ▶ Whole metal structure - High durability
- ▶ Moisture-proof plastic cover design
- ▶ Built-in automatic RGB LED lighting effect
- ▶ Made with highest quality raw materials
- ▶ Suitable to be used for various machines

Square LED Pushbuttons

Features

- ▶ Two colour design - Unique and very attractive appearance
- ▶ Built-in lighting LED design with 110 terminals
- ▶ Built-in microswitch
- ▶ Suitable to be used for various machines
- ▶ Over 10 million times reliability test for microswitch with gilded contact legs

Jumbo Pushbuttons

Features

- ✓ Achieves magnificent lighting effects
- ✓ 13 different display modes to control.
Enhance user interaction for your machine
- ✓ Top quality with a competitive price
- ✓ Simple installation takes your machine assembly to the next level
- ✓ Available in different colours

- ✓ 2T glass
- ✓ Black masking
- ✓ USB
- ✓ 1 push button hole

Coin Entries

For application on flat surfaces and with various inclinations

Devices in different colours and sizes. Some models are equipped with lighting to attract more attention.

Standard coin entry for flat surfaces. Available in chrome or gold finish, with coin reject lever

Adjoining coin entry flat surfaces. Available in chrome or gold, with coin reject lever

Coin entry for flat surfaces. Available in black ABS, with coin reject button, in the lengths of 7-20-30 and 45 mm

Top coin entry for flat surfaces. Available in chrome plated steel, with coin reject button

Coin entry for surfaces with a 30° inclination. Available in chrome or gold finish, with coin

Coin entry for surfaces with a 30° inclination. Available in black, chrome or gold finish, with a coin reject button and in lengths of 42.5 – 62.8 mm

Coin entry for surfaces with a 30° inclination. Made of die-cast material with a coin reject button and in lengths of 42.5 – 62.8 mm

Standard coin entry for inclined surfaces. Solid and robust, it is made of chrome plated steel, with coin reject button. It accepts coins up to 3 mm thick

Cast metal coin entry for surfaces with a 15° inclination. Characterized by its sharp lines and catchy design

Coin entry for surfaces with a 30° inclination. It is available in chrome plated steel, with a coin reject button and luminous "COIN" inscription

RM5 HD

Extreme reliability, remarkable acceptance speed and high versatility

The RM5 HD coin validator has set new reference standards in coin validation. Through 5 different sensors and 10 recognition parameters, it ensures a high level of recognition and discrimination of valid and counterfeit coins with an unprecedented speed of up to 6 coins per second.

HD high-discrimination system based on 10 different parameters regarding frequency, dimensions and phase

5-sensor identification technology: 3 inductive sensors, 1 optical sensor and 1 magnetic sensor

USB version also available

Advanced electronic and mechanical anti-fraud system: electronic anti-fishing device, coin movement direction detection, 3 mechanical traps, and wire cutting blade

Tropicalised version also available for environments affected by adverse weather conditions

over 2 million Comestero coin mechanisms installed!

RM5 Evolution

The record-breaking coin validator

The RM5 Evolution coin validator is well known for its quality and reliability. Its electronics combines extraordinary selectivity with extreme programming versatility: the Cloning system allows the transfer of the configuration parameters.

3 pairs of inductive sensors for processing 6 different parameters regarding the material and the mass

3 pairs of optical sensors for determining the coin's diameter

Identification channels: up to 59, each of which can be redirected to the outlets. The first 6 support Self-Prog mode

A mechanical and electronic anti-fishing device

Serial interface for external connections (portable programmer or PC)

Credit recognition: parallel, binary, pulse

Coin Sorters

CINCO

Coin sorter with 5 sorting paths plus reject mechanism specifically designed to satisfy the requirements of any type of gaming machine. It can be installed both on machines operating in ccTalk and in parallel, allowing switching modes with ease.

SPS41LCC4

Coin sorter with 4 in-line sorting paths and reject placed over the third sorting outlet.

SPS31LCC3

Coin sorter with 3 in-line sorting paths and reject placed over the third sorting outlet.

SPS31SCC3

Coin sorter with 3 in-line sorting paths and reject placed over the last sorting outlet.

SPS300CC3/VER-B

Coin sorter with 3 in-line sorting paths and a bottom reject mechanism.

SPS300CC3

Coin sorter with 3 in-line sorting ways and front reject.

ICS (Intelligent Coin System)

The innovative coin handling device

The ICS is a revolutionary coin handling device able to process up to 8 different size coins without the need of pre-sorting the coins by the user. Due to its compact design and spacious size (up to 1,300 various sized coins), it is ideal for many applications, and supports a minimum coin-in to coin-out height solution. Thanks to its patented design and SUZOHAPP's long-standing experience in coin handling, this device is the world's first currency solution able to be integrated into machines from diverse markets including parking ticket machines, self-checkout stations, money changers, kiosks and vending. ICS's intelligent interface gives you the possibility to directly manage the pay-out composition or make the calculation itself as to the amount of coins per type to be supplied based on the denomination it holds. It is also able to dispense 4 coins simultaneously.

* value can change according to currency

Compact design:
one product that works as 8 hoppers + 1 sorter

High pay-out speed and safety:
it guarantees the correct pay-out per coins' denominations

Cube Hopper

High speed single denomination hopper

The Cube Hopper has an expandable hopper capacity and is made from extremely strong, wear-resistant plastics. With one configuration it covers different coin sizes, and in case of conversion the disc can be replaced in seconds to convert the denomination of the hopper. The hopper is square and easy to mount by means of standard mounting bracket. By using a unique “Sun & Planet” gearbox system, this hopper offers the possibility to contain and count (with two extensions) over 1,200 coins of ø 24 mm. The hopper is protected by an auto-reverse anti-jam system and has an indirect optical readout with a continuous monitored optic sensor control. A low-level detection is integrated in the coin cup. A Dual Hopper version is also available which can pay-out two different types of coins.

Flow Hopper

Innovative through-hole hopper

The innovative electronics and high-resistance plastic materials ensure durability over time. Available in two interfaces – standard parallel and ccTalk serial. Supplied with quick-release plate.

3 DIFFERENT COIN BOWL SIZES

Medium cup

Intermediate cup

Large cup

Evolution Hopper

High dispensing speed and reliability come together

Based on a belt drive, Evolution Hopper is excellent in terms of both performance and ease of maintenance. The unique concept provides a single build type hopper that is suitable for 95% of the world's coins and tokens without needing adjustments. A large DC motor in combination with an electronic motor control board yields reduced friction and motor noise. The optic board is easily accessible by removing the electronic control board from outside the hopper.

Excel Hopper

Extremely durable and the most service-friendly casino hopper

Its gearbox system design provides advantages such as maximum torque with minimum power consumption, unique bayonet motor connection for easy motor replacement, and an easily-accessible coin exit. Available with 3 different bowls: standard bowl, wide or narrow bowl and extended bowl.

MFL®

Industry's most reliable, secure, modular design

MFL® is the first ever front load banknote validator designed for automated cash transaction applications. MFL® provides modularity and high security due to unique multi-sensor technology. MFL® utilizes a patented alignment mechanism enabling a high acceptance rate for banknotes and barcode vouchers. Due to its robust design and higher reliability, MFL® lowers total cost of ownership, enhances protection against counterfeits and improves machine uptime.

SC Advance™

Featuring enhanced recognition technology, faster note-to-note speed, and improved barcode recognition, the SC Advance™ offers a variety of cashbox options to ensure best fit. It offers a lower cost of ownership with its reliable, field proven technology. Low jam rates and exceptional performance create more machine up-time resulting in higher revenue and increased user satisfaction.

4 CASHBOX SIZE OPTIONS

Easitrax

Easitrax Soft Count offers a faster, more efficient way to validate revenue, manage cash drops and monitor the performance of your slot machines, even if they reside at multiple locations. The integrated software/hardware system works by collecting data from your SC Advance™ note acceptors and making that information securely accessible in a single database. Now, Easitrax is available as a portal-based system that allows operators to create customized reports and track performance remotely.

NV9 USB+

Enhanced sensing technology

The NV9 USB+ is the next generation banknote validator, boasting enhanced sensing technology and a high acceptance rate for multi-currency. NV9 USB+ is a versatile banknote validator with cashbox and bezel options to suit all applications. The unit can be mounted horizontally or vertically, and exceptional field reliability make the NV9 USB+ a truly global product. A note float module can be added to provide note recycling capability.

- Over 100 different world currencies accepted
- Proven field reliability
- Enhanced sensing technology = high acceptance rate for multi-currency
- Easy maintenance, free firmware updates
- Various cashbox and bezel options
- Optional note float unit

NV10 USB+

Compact stackerless banknote validator

The NV10 USB+ is a compact, stackerless banknote validator suitable for most applications. Accepting over 100 different world currencies the NV10 USB+ is a truly global product. With a field-proven validator, the unit supports industry-standard protocols and is simple to integrate and maintain.

- Enhanced sensing technology
- Proven field reliability
- Compact stackerless design
- One product supports global applications
- Simple integration
- Easy maintenance, free firmware updates
- Over 100 different world currencies accepted

Bill-to-Bill 300™

Advanced sensors technology for Gaming applications

Bill-to-Bill 300™ is the multi-width front load bill recycler with high acceptance rates and superior counterfeit detection due to its patented technology. It is characterized by an advanced sensors technology that improves authentic bill recognition and protects against counterfeits. The validated bills are distributed between three recycling cassettes and one lockable/removable drop cassette. A maximum of 3 denominations may be directed to the recycling cassettes, with the remainder directed to the drop cassette.

98% + first time insertion acceptance rate. Acceptance speed: 2.3 seconds per banknote

Bill width validated: 67 to 71 mm wide (fixed width) and 62 to 82 mm wide (multi width), length of bill: maximum 172 mm, minimum 124 mm

Up to 3 recycling cassettes (each cassette holds up to 100 notes): "smart" cassettes save content information for easy swapping, individually configurable to any denomination

Multi-note dispenser for dispensing up to 20 notes in bulk

Industry's first self-centering mechanism

Bill acceptance: lengthwise in 4 directions

Barcoded coupons: 2 ways face up (encoding standard: ANSI/AIM BC2-1995, Uniform Symbology, Interleaved 2 of 5)

Anti-stringing protection

Up to 2 high-security locks protecting 1000-note metal cashbox contents (one additional lock to lock cashbox to device)

High acceptance rates

Multi-note dispenser

Lockable and removable drop cassette

PayCheck® NextGen™

PayCheck® NextGen™ is the 'One' printer venues need to ensure reliability, functionality and connectivity. It's the fastest printer in gaming.

Benefits

- ✓ Better reliability and lower overall cost
- ✓ Greater customer satisfaction
- ✓ Reduces paper jams – no matter the bezel used
- ✓ Save on paper cost by no longer wasting tickets
- ✓ Use any fonts, images and logos for your tickets
- ✓ No jamming within a presenter
- ✓ Fast & easy maintenance
- ✓ Easy field service and upgrades
- ✓ Easy access to all major components
- ✓ Fast plug-and-play replacement without powering down
- ✓ Reduce downtime with larger ticket capacity
- ✓ Usable in all jurisdictions worldwide

Ticket tray note size

Multiple bezel options

Integrated anti-jamming paper path

Easy access for simplified maintenance

PayCheck® 4™

Only the PayCheck® 4™ Thermal Printer can print a ticket in just 0.6 seconds! In fact, the PayCheck® 4™ is so lightning fast, there's no need to rely on a "burst", like some other, lesser printers do. Also, the PayCheck® 4's 8 MB of standard memory enables you to store more fonts, images, logos and barcodes, so you can personalize your players' gaming experience. With a lifespan of approximately 640,000 TITO tickets, its print head has the longest life of any in gaming.

Benefits

- ✓ Greater customer satisfaction
- ✓ Better reliability and lower overall cost
- ✓ Let you personalize with fonts, images and logos
- ✓ Fast plug-and-play replacement without powering down
- ✓ Reduces paper jams for more uptime
- ✓ Fast & easy maintenance
- ✓ Easy access to all major components
- ✓ Easy field service and upgrades
- ✓ Usable in all jurisdictions worldwide

Ticket tray note size

Multiple bezel options

PayCheck® Terminal™

PayCheck® Terminal™ is the world's first Kiosk terminal powered by a TITO printer. Taking advantage of the power and uniqueness of the PayCheck® NextGen™ printer, we created a Linux-based terminal for your gaming, lottery and retail applications.

Benefits

- ✓ Variety of applications:
 - Validation terminal station
 - Bill to TITO printout kiosk
 - Payment kiosk
 - Players loyalty kiosk
 - PullTab kiosk
 - Self-Serve lottery terminal
 - Promotional kiosk
- ✓ SDK compatible with your GMS provider and/or marketing promotional provider
- ✓ Ideal for desktop or self-server application
- ✓ Maximizing space with its small footprint
- ✓ Networkable
- ✓ Advertise your services easily
- ✓ Reduce downtime with large ticket capacity

Secure PIN Entry Module

Paycheck® Kiosk™ with Bill Validator

HSV L Advanced™

The HSV L Advanced™ (High Speed Video Lottery) printer provides manufacturers ultimate flexibility and outstanding reliability. By using innovatively-designed movable spindle arms the HSV L Advanced can adapt to any kiosk design.

Benefits

- ✓ Greater customer satisfaction
- ✓ Better reliability and lower overall cost
- ✓ Let you personalize with fonts, images and logos
- ✓ Able to replace paper with little or no down time
- ✓ Reduces paper jams for more uptime
- ✓ Easy replacement without powering down
- ✓ Fast & easy maintenance
- ✓ Easy access to all major components
- ✓ Easy field service and upgrades
- ✓ Usable in all jurisdictions worldwide

Configurable options

- ✓ Horizontal
- ✓ Vertical (with extra bracket)
- ✓ Upside down
- ✓ Board separate

Unique illuminated jamming resistant bezel

Upside down (with extra bracket)

EZ-Tear™

EZ-Tear™

The EZ-Tear™ printer provides manufacturers flexibility while remaining compact and reliable. Built with modularity in mind, the EZ-Tear™ printer will fit many types of cabinets and with its clamshell design, provide easy access for paper loading.

Benefits

- ✓ Lower cost of ownership
- ✓ Better reliability & customer satisfaction
- ✓ Print directly from any Windows O/S
- ✓ Provides easy paper loading
- ✓ Reduces paper jams for more uptime
- ✓ Easy replacement without powering down
- ✓ Fast & easy maintenance
- ✓ Easy access to all major components
- ✓ Easy field service and upgrades
- ✓ Usable in all jurisdictions worldwide

Configurable options

- ✓ 65 mm or 80 mm
- ✓ Compact
- ✓ Compact + Bezel
- ✓ Base Plate + Spindle
- ✓ Base Plate + Spindle + Bezel

Modular design

PayCheck® High Speed Couponing™

Specifically designed for printing promotional coupons, it prints a ticket in 1.2 seconds.

Barcodes: interleaved 2 of 5, Code 39, Code 93, UPC-A & UCP-E, CODABAR, EAN 8 & EAN 13, CODE 128

Print in sequence

64 Mbit SDRAM, 16 Mbit flash for storing code, fonts, logos, images etc.

Print head life of 100 km

Real-time operating system, DSP/BIOS

Many protocols and emulation available

Host-controllable buzzer/alarm and status indicator lights

Multiple sensor: top of form, ticket in, ticket out, ticket low

Bitmap graphics: portrait, landscape and page mode printing

Benefits

- ✓ Easy to use configuration & diagnostic tools
- ✓ Downloadable firmware
- ✓ Supports multiple fonts and barcodes
- ✓ Rugged, intuitive design for durability and ease of use
- ✓ Power-up self-test

Lockable cover and rugged metal design

Automatically cuts and stacks 200 promotional tickets

USB and serial port

“Spill-Proof” Thermal Printer

It’s fast, quiet, efficient, affordable and easy to use. Best of all, its patent-pending spill-proof design means never having to worry about OOPS again. IEC60529, IPX3 spillage approved.

“Spill-Proof Cuts” Printer

“Spill-Proof Cuts” protects your printer from potentially costly liquid spills and it also quickly and efficiently “cuts” the paper for maximum ease of use.

Slot Machines Tickets

Superior quality slot machine tickets, from blank stock tickets to customized tickets with 4-way repeat backside print. Tickets are approved for use in International Game Technology's (IGT) EZ-Pay™ and Sierra Design Group's (SDG) voucher systems.

- ✓ Unlimited colour possibilities and 4-colour printing processes provide photo realistic quality and colour reproduction
- ✓ Digital proofing systems guarantees the best match to press
- ✓ Reliable and flexible security options protect against fraud
- ✓ On-the-spot authenticity verification with thermochromic, blacklight visible UV and coin-reactive inks

Customized Tickets

Possibility to have 4 different designs on the backside of the ticket, this is a so-called 4-way repeat print, where you can choose any 4 designs which will be repeated every 4 tickets.

This is especially interesting to promote special offers from restaurants or specific games.

Barcode Scanners

1 FM100

Features

Ease of integration
Designed for OEM applications, this high performance fixed CCD scan engine can easily be integrated into various solutions such as kiosks, ticketing machines, (Reverse) Vending Machines and many more. The small form factor enables easy integration into various solutions. The FM100 has an IP54 rating meaning it is dust- and water resistant.

Advanced technology
Includes core-technology UIMG, which is independently designed and manufactured by Newland Auto-ID. UIMG technology includes the optical, CMOS, digitizer, decoder, image processing & embedded systems. The scanner supports all global standard 1D symbologies. Its reading performance reaches and exceeds global standards. By using the accessories provided, the user can ideally set up the scanner to its user environment.

2 FM430 Barracuda

Features

Megapixel camera
The FM430 Barracuda is a barcode scanning powerhouse. No matter what type of barcode is presented, the megapixel camera allows users to scan 1D and 2D barcodes, including very small ones, with impressive speed and ease.

Snappy, also in less than perfect conditions
A combination of the IR sensor and the light sensor helps to keep workers moving, even in low light conditions. Its strong, white light ensures barcodes are always well lit.

Handsfree or manual scanning
Companies looking for automatic scanning to relieve manual labor can set up the FM430 Barracuda for handsfree scanning. Alternatively, a manual trigger button can be used if preferred.

Intelligent programming
The sensors of the FM430 Barracuda automatically adjust the brightness of supplementary lighting based on the light that reflects off the barcode. This also makes it an optimal solution for scanning from mobile phone screens. Depending on the application, the scanner can be set to optimally read from close and long distance.

Reliable outdoor use
With an IP rating of 54, this fixed mount scanner can be placed in a housing and used outdoors without worrying about dust or moisture.

Bright laser aimer (optional)
The FM430 Barracuda is available with a red cross laser that makes scanning easy and intuitive, even for the most inexperienced users.

3 FM30 Grouper II Series

Features

Superior decoding performance
Your employees can scan virtually any barcode, including 1D and 2D, at an extraordinary speed.

Effortless scanning from mobile phone screen
Built to read from an LCD screen, the FM30 Grouper II Series can easily read barcodes from any mobile device screen. An extended capability of IR reading allows the device to detect barcodes under virtually any ambient light. Whether you operate at daytime or nighttime, scanning is quick and efficient.

Easily mounted in small spaces
The FM30 Grouper II Series is designed for businesses that require high performance and a minimal footprint. With its small size, the device is ideal for kiosk integration and other POS solutions.

Easy to install
The FM30 Grouper II Series can be set up quickly and easily. A plug-and-play simplicity enhances your experience right from the start. The device can be further configured according to your needs by using a simple barcode programming guide.

4 EM2037-V4

Features

Superior decoding performance
No matter what type of barcode is presented, the megapixel camera allows users to scan 1D and 2D barcodes, including very small ones, with impressive speed and ease. In addition to excellent scanning of high-density barcodes, the EM2037-V4 also provides the added value of decoding postal barcodes.

Advanced technology
The EM2037-V4 is powered by advanced imaging technology and Newland patented UIMG technology, a computerized image recognition system, can read barcodes printed on paper/plastic or displayed on mobile phones with excellent motion tolerance.

Powerful data editing capability
The scan engine allows customizing scanned data with ease and provides supporting software to address diverse application needs.

Compact & lightweight design
Seamless integration of imager and decoder board makes the scan engine very small, lightweight and easy for integration.

Various interfaces
The EM2037-V4 supports USB and TTL interfaces to meet customer needs.

Charge'N Play

Add USB Charging capabilities to your machines

Charge'N Play is the innovative dual USB charger – easy to install and simple to use, and a magnet for customers. Charges up to 2 electronic devices through the USB port. Charge'N Play can be installed in cabinets or integrated in the wall.

- 2 USB ports
- Top or side mount module
- Optional installation kit
- Designed to mount easily to wood or metal cabinet
- Optional 3-way micro-USB cable (1m length) lighting connector
- Compatible with popular mobile devices

Also available as kit, with cable, wobbler and power supply

Built-in Kit

Built-up Kit

Available with Charge'N Play

Lumia RGB Infill Panel

Features

- ▶ Pleximilchglas with RGB LED lighting and remote control
- ▶ High quality soldering iron stand
- ▶ Front panel can be easily removed (3 screws)
- ▶ Different colours adjustable, as well as various flash modes and a colour change programs
- ▶ Very discreet, non-glare lighting
- ▶ Dimensions: 95cm x 35cm x 47cm

Protec Alarm System

Features

- ▶ 12/24v DC operation
- ▶ Battery Back up
- ▶ Uses accelerometer - no external Tilt Switch necessary
- ▶ Automatic arming (if required)
- ▶ External LED indicator
- ▶ Spares available upon request

LED Light Strips

Controller & wireless remote sold separately

Attract more attention and increase your earnings!

- ▶ Easily installs in or around your machines tension and increase earnings
- ▶ Great for amusement parks and games, casinos, slot machines, arcades, family entertainment centres, theatres, backlighting, decorative lighting, etc.
- ▶ Ideal way to increase earnings on your cranes and pushers
- ▶ Very thin continuous length flexible LED light strips
- ▶ 5m rolls can be separated every 3 LEDs and reconnected again
- ▶ Super bright high-quality SMD LEDs per reel with 120° wide angle illumination
- ▶ 3M adhesive tape on back for easy installation
- ▶ Operates on +12VDC power supply (150-0072)
- ▶ Solid state, high shock or vibration resistant
- ▶ LEDs controlled by controller and wireless remote (sold separately)
- ▶ Each controller can run 65.62 feet (20 meters) of LED strips
- ▶ Long life: 50,000 hours
- ▶ Less power consumption than traditional lights
- ▶ No RF interference
- ▶ Sold in reels of 5m
- ▶ +12VDC; 20W

Lamps

Light PRO LED Tubes

- ▶ 24V SMD LED Tube CW
- ▶ Replaces Traditional Halogen F15T8
- ▶ 24V SMD LED Fully Diffused Tube CW
- ▶ Replaces Traditional Halogen F15T5

Joysticks

- ✓ Supplied with microswitches with 4.8 mm or 6.3 mm
- ✓ Realistic spring action
- ✓ Available with 4 or 8 ways
- ✓ Ergonomic handle for comfortable grip

BL Locking Style Joystick

- ✓ Unique and very attractive round diamond knob design
- ✓ Shaft Locking design, easy and quick for installation
- ✓ New Shaft design for switchable Knob and anti-stealing functionality
- ✓ Special switch/PCB locking design, convenient for service and maintenance
- ✓ Made with highest quality raw materials with a competitive price
- ✓ Connection types: Switch only, switch with PCB
- ✓ Special lighted design (non-lighted model is available)
- ✓ Knob options: 43mm diamond ball with bubble, 43mm diamond ball without bubble, 35mm solid round ball (red /black)
- ✓ Suitable to be used for various machines

Switch structure

Switch with PCB

Switch with PCB and LED light

Trackballs

- ✓ Exceptional performance
- ✓ Custom colours available
- ✓ No external power supply needed
- ✓ Ease of use

Driving controls

- ✓ Sturdy 2 position shifter
- ✓ Microswitch operation
- ✓ Standard mounting

- ✓ Steering Wheel
- ✓ Ball bearing construction
- ✓ Potentiometer control
- ✓ Standard mounting

Speakers & Amplifiers

A wide range of speakers with terminals perfect for use anywhere a small footprint speaker is needed. Available in various sizes and voltages.

Power Supplies

200W, 400W and 500W

SUZHAPP has the power supplies you need, now featuring label and connector artwork on our website, to ensure you get the right power supplies every time.

Counters

SEC Starpoint Electronic Counter

Enhanced security is a major feature of the SEC, a unique fingerprint code allows the machine to detect any meter changes and to prevent operation if the meter is not present. By utilizing the latest electronic technology, the SEC avoids the reliability problems and service call-outs which can be experienced with mechanical counting devices.

- ✓ Replaces up to 31 mechanical meters with individual counters stored in EEPROM
- ✓ 7-digit LCD for displaying contents of counters
- ✓ Text messages and counter selection controlled by host machine
- ✓ Clocks serial interface designed to work on existing meter ports
- ✓ Improved security through:
 - Secure software protocol
 - Tamperproof counters with unique fingerprint code

Door Switches

Single and Double Pole

- Choice of push and push-pull interlock switches
- Snap-in panel mounting
- Long-life coil spring, snap-action mechanism
- Temperature rating -40° to +85°
- Flammability rating UL94V-0
- Various approvals available
- Detailed datasheets available

Cooling Fans

DC Cooling Fans

- Compact cooling fans
- Wire connection
- 12 or 24 Vdc
- Speed up to 5800 RPM

AC Cooling Fans

- Protects electronics from overheating
- Easy mounting with 4 bolts
- Terminal or wire connector
- Speed up to 3000 RPM

Finger Guards for Cooling Fans

- Protects electronics from over heating
- Easy mounting with 4 bolts

Compact RGB Handle Mechanism

- ✓ Ultra low-profile design allows for external mounting on cabinet and provides increased space inside of the cabinet
- ✓ Easily to remove for improved serviceability
- ✓ Ruggedized die cast design to provide long-term performance
- ✓ RGB attract mode on handle mechanism cover to attract additional attention
- ✓ As handle is pulled LEDs light up with each of the six clicks of the handle movement. All LEDs light up when handle is fully pulled
- ✓ Pre-programmed with unique flashing patterns and colour combinations
- ✓ RGB illuminated mechanism ball with 2 multi-colour LED's that flash, glow or flash light patterns to further trigger your interest in your handle machines
- ✓ 45° rotation

Flip Card Unit

- ✓ Available in two standard sizes for machine flexibility
- ✓ Provides a full deck of cards plus face cards and jokers
- ✓ Driven by standard 12V, 24 step NMB stepper motors
- ✓ Three motor steps per card
- ✓ Designed to include movement detection
- ✓ Separate mounting cradle for ease of machine assembly and service
- ✓ Units can be stacked together or mounted individually
- ✓ Card illumination via RGB LEDs
- ✓ Cards can be driven by the host or through the SUZOHAPP driver board

Custom Reel Mechanisms

Custom Engineered Reel Mechanisms to Fit the Needs of Our Customers

E-PRL

Electronic Re-Programmable Lock

Innovative, patented lock using electronics to raise the level of security from mechanical technology. E-PRL is a locking system composed of universal locks with stainless-steel housing and self-powered key sets. It is available in Unique-code or Multi-code versions and includes remote access control management with dedicated GSN-KEY software. No wiring is required for installation and operation.

Features

- Use of steel in all mechanical parts (AISI 316) to stop forced entry and limit wear
- Resistant to water and dust for outdoor applications, IP65 sealing
- No reference on lock for burglary – listing key pair difficult to use in burglary attempts
- Upgrade to E-PRL without modifying existing mechanicals – lengths and diameters of realization stators compatible with existing mechanical version
- No addition or change to wiring on machines with mechanical locks as power is internal to the key
- Modern ergonomic key for comfortable use – dimensions reduced to bare minimum with a harmonic shape
- High-quality Japanese key electronic components
- Inviolable AES 128-bit custom communication system
- Over 10 billion possible key codes due to the electronic system
- Uniqueness of a single key – each key has its own “DNA” derived from on-board electronic data
- Uses a small, easily changeable, long-life Duracell 2430 battery
- Lock stores up to 4,000 accesses between downloads
- High storage capacity of History Key enables storing multiple access locks with a single instrument. The History Key allows downloading and storing up to 32,000 accesses managed through dedicated software

Backward compatibility
The fixing hole, length and rotation of the lock makes it compatible with the most popular machines on the market

Innovation
It's equipped with self-powered advanced electronic technology. No additional wiring is required

Access control
It identifies each user, checks the permissions and records each operation. The event log can be downloaded using a special key

Security
High mechanical strenght, stainless steel housing and electronics with more than 10 billion combinations available, practically endless!

Optional features

Bluetooth Connectivity

Event sharing with other software

ASSA Desmo Locks

Desmo Casino Locks

With many of the world's largest casino groups as a customer the product has become a standard for any casino operator who insist on maximum security combined with maximum operating comfort. The Assa Desmo is a patented lock construction based on direct drive pins (no spring operation) making it particularly suitable for many operations in dirty and hostile environments. False cuts on the pins provide resistance to any currently known method of picking. The Assa Desmo system is the effective way to prevent unauthorized manufacturing, cutting and distribution of key blanks, it also requires the most advanced and precise key cutting equipment in the lock industry.

- 8-pin lock combined with two strong side bars
- Large key made of nickel silver for lasting durability and comfortable operation
- Standard 90 degrees operation and key removable in locked position
- Various collars available to adjust any mounting depth
- Standard supplied with 32 mm cam, other sizes and models available
- Key-different locks are supplied with 2 keys per lock

VENIA Locks & Keys

Venia Security Switchlocks DPST

- ✓ 14 pin system, 10 pins on the flat key side and 2 side pins on each side
- ✓ Brass housing with high-quality spindle and bright chrome finish
- ✓ A security collar is included with every Venia lock to prevent any attempts to turn the lock with tools
- ✓ Key made of nickel silver assures longer lifetime and trouble-free operation
- ✓ Only available as key different
- ✓ Connection by 4 solder terminals
- ✓ 2 different switch configurations: pos. 1-3 on/off, pos. 2-4 off/on

Venia Security Camlocks

- ✓ 14 pin system, 10 pins on the flat key side and 2 side pins on each side
- ✓ Brass housing with high-quality spindle and bright chrome finish
- ✓ A security collar is included with every Venia lock to prevent any attempts to turn the lock with tools
- ✓ Key made of nickel silver assures longer lifetime and trouble-free operation
- ✓ Camlocks are available in 3 different lengths: 16 mm (5/8"), 22.3 mm (7/8") and 28.6 mm (1-1/8")
- ✓ Standard 2 position 32 mm cam included

Venia Security Switchlocks

- ✓ 14 pin system, 10 pins on the flat key side and 2 side pins on each side
- ✓ Brass housing with high-quality spindle and bright chrome finish
- ✓ A security collar is included with every Venia lock to prevent any attempts to turn the lock with tools
- ✓ Key made of nickel silver assures longer lifetime and trouble-free operation
- ✓ Venia switchlocks are available with and without automatic key return

Venia Keys

- ✓ Venia keys can only be ordered through SUZOHAPP
- ✓ Key made of nickel silver assures longer lifetime and trouble-free operation
- ✓ These keys can be cut to your specific key code

Xlocks & STC Locks

Security Camlocks Key Alike

- ✓ 10 pin operation
- ✓ Die cast housing with chrome finish
- ✓ Camlocks available in 3 lengths: 16 mm (5/8"), 22.3 mm (7/8") and 28.6 mm (1-1/8")
- ✓ Large key provides good grip during operation
- ✓ Key made of nickel silver material for trouble-free performance
- ✓ Standard supplied with 32 mm cam with dual hole so the lock can be mounted in any position

Security Switchlocks

- ✓ 10 pin operation
- ✓ Die cast housing with chrome finish
- ✓ Length 36.4 mm (1-7/16")
- ✓ Large key provides good grip during operation
- ✓ Key made of nickel silver material for trouble-free performance
- ✓ Switchlocks have 6.3 x 0.8 mm terminals fitted for easy connection
- ✓ Switchlocks are available with or without automatic key return

STC Round Key Camlocks

High reliable range of camlocks of different sizes to satisfy customer needs. Locks are available both as key different

- | | |
|------------------------------|---|
| ✓ 7-pin tumbler lock | ✓ Available as key different and key alike |
| ✓ Housing with chrome finish | ✓ Available in: 16 mm (5/8"), 22.3 mm (7/8") and 28.6 mm (1-1/8") |
| ✓ Round chrome plated key | ✓ Cam included |

All new key alike series are supplied in lots of 25, 50 or 100 pcs with a total of 5 keys per key code. Re-orders on the same key code are possible with a minimum of 25 locks per key code.

Security Bars

Universal Security Bar

- | | |
|---|---|
| ✓ Designed to be used with a padlock (not included) | ✓ Supplied complete with hardware |
| ✓ Heavy duty steel | ✓ Not recommended for pedestal cabinets |
| ✓ Telescopic adjustable 40 - 85cm | |

Adjustable Security Bar

- | | |
|--|---|
| ✓ For Changers, small Cabinets and other games | ✓ Made from durable steel with black finish |
| ✓ Adjustable from 25 to 40 cm | ✓ Simple mounting with provided hardware |
| ✓ Easy installation | ✓ After installation, only a 12 mm hole needs to be drilled in hasp to fit padlock (not included) |

Specially designed for all types of Coin Operated equipment

Zenith

- ▶ Eco leather fire-retardant, water-proof, stainproof (certificate 300,000 cycles anti-abrasion)
- ▶ Padded ergonomic polyurethane foam to varying hardness
- ▶ Base: chrome diam.500 mm conical reinforced steel
- ▶ Swivel and up & down 58 cm to 84 cm (suitable for both slant top and high cabinet both)
- ▶ Base is 55 diameter - maximum height of backrest is 103 cm (minimum) and 128cm (maximum)
- ▶ Seat Auto-return 360 degree with auto-centreing breaking friction
- ▶ Finished chromium
- ▶ Exceeded the following tests and certifications: durability test, seat and back drop test, footrest fatigue resistance, resistance to fatigue armrest, stability test

Zenith4
Base chromed steel in 4 legs

The Carrillo

- ▶ Eco leather fire-retardant (certificate 300,000 cycles wear resistance)
- ▶ Padded ergonomic polyurethane foam to varying hardness
- ▶ Structure in reinforced steel with welding anti-break
- ▶ Finished chromium (three chromium)
- ▶ Available in height 73 cm for high cabinet or 55 cm ideal for slant top
- ▶ Exceeded the following tests and certifications: durability test seat and back - drop test - footrest fatigue resistance resistance to fatigue armrest - stability test
- ▶ Personalised artwork available

The Carrillo

Bebe Carrillo

39-0084-1

39-0084-1A

Available in two sizes

Apollo

- ▶ 360° rotation
- ▶ Adjustable seat height
- ▶ Free running backrest
- ▶ The six flat double wheels cannot be seen due to the cover and can support a load of 300 kg. Ideal for carpets and hard flooring
- ▶ With its teflon gliders, the chair slides smoothly over the floor without damaging it. Even when heavily loaded. No scratches, no streaks or other mark
- ▶ Spare parts are fast delivered and are quick and easy to replace

Redemption Tickets & Dispensers

Deltronic Ticket Dispenser

- ▶ “Snap out” one ticket dispenser – replace it with another in seconds
- ▶ No tools necessary
- ▶ Fool proof braking system is easily adjustable
- ▶ Validation “Diamond” mark identifies tickets
- ▶ Available as Continuous or Pulse type

ENTD-2000 Ticket Dispenser

- ▶ Virtually eliminate ticket jams
- ▶ Requires very little maintenance
- ▶ One of the most reliable and compatible ticket dispensers on the market

Tickets can be personalized to your requirements

Coin Cups & Holders

- ▶ Cost efficient
- ▶ Made from strong, durable, impact – resistant plastic
- ▶ Stack easily, won't stick
- ▶ Available in 2 sizes
 - 300cc (D=100mm, h=60mm)
 - 500cc (D=115mm, h=70mm)

CUSTOMISE YOUR CUPS

Just send us your logo and any ideas you might have and for a small set-up charge you can have your cups customised to your design

Air Hockey Puck Twister

- ▶ Available in 70mm and 80mm diameter
- ▶ 4 neon colours: orange, white, yellow and blue
- ▶ Colours light up when black light tube is used
- ▶ Customer logo available to order (minimum 1000 in one colour, one time tooling cost applicable)
- ▶ 70mm pucks

Artscape™

Artscape™ is high definition, digital imaging onto premium grade, spill protected pool table cloths

Using our expertise and leading edge technologies we print unique, photo realistic designs coordinated across the bed and cushion rails. Artscape™ imaging is available on cloth made for both American and English pool. All our fabrics are manufactured to the highest quality and durability.

We have over 100 years experience in the manufacture of pool and snooker cloths. We possess the unique ability to process the printed cloth through our finishing technology to achieve the perfect playing surface whether this is a fine worsted or a fine napped finish.

Artscape pool cloths can increase table revenue by up to 40% and offer the complete solution; each is made to measure, individually packaged and easy to fit.

Our designs do not affect cloth performance or play characteristics and maintain cloth appearance for longer by minimising the effects of wear.

Pool & Snooker Balls

Saluc produces and distributes billiard balls under the registered trademark Aramith in more than 85 countries, and has a market share of 80% worldwide. The company is also specialised in the production of industrial balls used in all kind of applications, as well as in 9 pin bowling balls and trackballs. Export represents 98% of its activity.

One of the major strengths of the company is its upstream integration: Saluc has its own chemical plant, which produces the phenolic resin which gives the exceptional characteristics to the finished products. This integration allows the price optimization and quality insurance. The Aramith phenolic balls last up to five times longer than other balls made of polyester," said Yves Bilquin, sales and marketing manager for north America and previously the R&D manager. SUZOHAPP is a distributor and stockist of Aramith products, the full range is available although some of the less standard items may require lead times and stock.

ICX Active-9

Coin Processing Equipment with Active Sorting® Technology

Discover the flexibility of Active Sorting® with the ICX Active-9. Eagerly anticipated, intelligent, and fresh out of the box, SUZOHAPP proudly presents the ultimate, mid-range, strong and reliable coin sorter. The ICX Active-9 is perfect for medium sized businesses, especially those wishing to process medium volumes of coin without having to worry about reliability and capability.

Features & Benefits

- Superior Coin Identification**
 Using the latest in SUZOHAPP sensor technology, the ICX Active-9 computes a specific EMS “Electro Magnetic Signature” for each processed coin. A positive coin identification requires all measured parameters to fall within predefined thresholds (coin windows). This level of accuracy allows the ICX Active-9 to precisely reject unwanted coins like other currencies, counterfeits, unfit coins or token. A maximum of 30 different coin types or tokens can be simultaneously monitored.
- Active Sorting® Technology**
 Active Sorting® technology allows the user to assign each identified coin type to a specific outlet. Since it is possible to dedicate multiple coin types (denominations) to the same outlet the ICX Active-9 can for instance separate all individual USD denominations in outlet No1-No6 while simultaneously processing all EURO coins mixed into outlet No7. Different sorting scenarios can be saved as ‘setups’ which quickly allow the processing of endless variations of multi-coin, multi-token or even multi-currency situations.

DTC series

Proven sensor technology, highest reliability, extreme accuracy

Designed to satisfy the market's need for reliable and modern cash processing, the DTC Series is a strong performer in sorting and counting, as well as in rejecting foreign and damaged coins. Through the unique sensor technology these solutions offer outstanding accuracy, combined with high reliability.

Flexible choices

Depending on how many denominations you wish to count and sort, choose the DTC model that best meets your needs. The DTC-1 sorts and counts one denomination, the DTC-6 six denominations and the DTC-9 nine. An optional second solenoid can also be installed to separate a second currency or tokens.

DTC-9

9 pocket value sorter for mixed coins

Latest features and operating excellence

The touch screen display and the keypad for easy operation ensure years of operating excellence

Heavy duty coin sorter

Built in strong metal, it counts up to 520 coins per minute and sorts them into boxes. If two denominations are too close in diameter there is an option to install a second solenoid for optimal sorting

Several sorting options

It can be equipped with bag holders as well as coin tube holders

Detect foreign coins

The unit features automatic rejection of foreign and damaged coins, as well as programmable batch stops

Reliable and versatile

The latest design is made to fit in different working environments, such as banks, supermarkets, casinos, retail stores and other areas where cash is being handled

SC-303

Long-lasting coin counter

Features

- ▶ Compact and silent coin counter (counts up to 2,700 coins per minute)
- ▶ Counting, bagging and tubing
- ▶ Pre-programmable batch stops
- ▶ Handle for easy transportation
- ▶ Easy to read led display

SC-350 & SC-360

Heavy duty coin counters

Features

- ▶ Ideal to fit the gap between heavy duty machines and smaller back-office machines (counts up to 3,000 coins per minute)
- ▶ Equipped with standard RD/AuX for external display and foot control and serial interface for possibility to control machine from PC
- ▶ Counting, bagging and tubing
- ▶ Pre-programmable batch stops
- ▶ Easy to read led display

SC-8220

1+1 Pocket Value & Multi-Currency Sorter

The SC-8220 is a high quality value and multi-currency counter that delivers outstanding results at low cost. Reduce the manual cash handling and get full control of your cash!

▶ **UV LED bar**

A new patented UV LED bar placed under the machine helps manual authentication of bad notes. The UV lights turns on automatically for a few seconds when the notes are rejected.

▶ **Integration and backward compatibility**

For easy back office integration the SC-8220 is provided with its own protocol. All transactions can be seen and managed using the free software.

▶ **Front access features**

The SD-card slot is placed on the front of the machine, thus making the update of the machine very simple.

▶ **Full Flexibility for the distributor**

The SC-8220 comes with a preset of around 20 currencies.

▶ **Full Flexibility for the end user**

The SC-8220 counts and verifies one currency with ease and accuracy. It handles multi-currency in two modes to avoid time consuming and repetitive manipulations:

- 1) MULTI - it accepts different currencies in one single operation and provides a total note count split into the various currencies found within the note bundle
- 2) AUTO - it identifies the currency of the first note in the bundle and sets itself in the mode to count this currency and to reject all other currencies. As soon as the pockets are empty, the machine turns back to the auto mode for the next notes acceptance. Mixed notes of many different currencies are counted without any keyboard operation.

Specifications

| | |
|------------------------|---|
| Dimensions (W x D x H) | 275 mm x 260 mm x 319 mm (10.83"x10.24"x12.56") |
| Weight | Approx. 9.3kg (20.5 lb) |
| Speed | 800 notes per minute (serial number) 900 notes per minute (value counting) 1,100 notes per minute (free counting) |
| Interface | USB, SD Card, LAN, Serial port for printer and external display port |

SC-1600 Series

Detecting counterfeits using ultraviolet light

- ▶ Available in different security levels and note recognition modes (UV, MG, IR)
- ▶ Standard functions include continuous counting as well as variable batching of any quantity between 1 and 999 notes

- ▶ The machine restarts automatically after each completed batch to maintain high throughput
- ▶ High throughput of up to 1,500 notes per minute

Specifications

| | |
|------------------------|--|
| Dimensions (W x D x H) | 270 mm x 250 mm x 230 mm (10.6" x 9.8" x 9.0") |
| Weight | Approx. 5.7kg (12.6 lbs.) |
| Speed Range | 800/1,000/1,200/1,500 notes per minute |
| Capacity Power | 99-245 V, 50/60 Hz |

Swing

Compact cash-in machine

Suitable for any type of environment, Swing has no rivals in terms of reliability and security. Swing is secure against break-in or tampering attempts: the new cabinet, the powered locking mechanisms and the high-security side lock make it strong and sturdy. External management menu, accessible with refill key.

Features

- ▶ SD-card for programming, upgrading firmware and exporting accounting data
- ▶ High validation and counting speed: 4 coins per second
- ▶ Automatic recharge, controlled banknote recycler recharge, display of partial and total accounting
- ▶ UPS unit, with two back-up batteries, to terminate operations in progress on the cash-in machine and to record them even without electric current
- ▶ Free standing armoured cabinet

Smart Easy

Equipped with multi-coin hopper

All peripherals are integrated by means of the ccTalk communication protocol to prevent all forms of tampering and fraud. The Smart Hopper enables the change machine to be recharged with all coin denominations by simply emptying the cash box of the gaming machines into the hopper, significantly reducing the amount of cashing up time.

Features

- ▶ Multi-coin hopper capable of dispensing up to 6 types of coin
- ▶ Controlled hopper emptying into a removable tray in the base of the coin changer
- ▶ SD-card for programming, upgrading firmware and exporting accounting data
- ▶ Countertop installation with is free-standing base or Easy-UP wall mounting kit

Brain

Telemetry system

Developed in cooperation with BiTX, Brain is the innovative remote control for change machines. With Brain one or more machines can be networked and remotely controlled using PC or tablet, whilst notifications can be received on your smartphone. With a simple connection, operators can access all the information concerning accounting, alarms and master data. An email message promptly warns operators in the event of any alarms or situations that require special attention.

Easy PRO and Dual Coin PRO

The best selling change machines

Compact coin change machine which perfectly fits into all environments: shopping centres, gyms, airports, service stations, arcades, offices, bars and internet cafés.

Features

- ▶ Dispensing of one type of coin/token
- ▶ Pivoting door to facilitate dispenser-loading and cash box removal operations
- ▶ Installation on a base, a countertop or wall-mounted
- ▶ SD-card for programming, upgrading firmware and exporting accounting data

Sturdy and capacious coin change machine. Its reinforced closing mechanisms and ccTalk protocol make it one of the most secure change machines on the market. It can be equipped with the NV9 USB banknote reader with built-in stacker to stack up to 600 banknotes.

Features

- ▶ Dispensing of two types of coin/token
- ▶ Installation on a base, a countertop or wall-mounted
- ▶ SD-card for programming, upgrading firmware and exporting accounting data

Jolly PRO and Twin Jolly PRO

Robust and reliable with excellent security performance

High coin capacity in a compact size.

Features

- ▶ Dispensing of two types of coin/token
- ▶ Free standing cabinet
- ▶ SD-card for programming, upgrading firmware and exporting accounting data

Slim and versatile coin change machine.

Features

- ▶ Dispensing of one type of coin/token
- ▶ Free standing cabinet
- ▶ SD-card for programming, upgrading firmware and exporting accounting data

The IDEAL Cashless Amusement Solution

Increase revenue by going cashless

Going cashless is a great strategy for increasing sales because customers who use debit-style cards typically spend 15% more than cash customers. Customers tend to spend more when they don't have to make a buying decision each time they play a game or choose an attraction. Incentivise a larger up-front purchase by allowing your guest to load up a debit card that can be used anywhere in your facility, including any Point-of-Sale location.

IDEAL Cashless Card Arcade System combines innovative, reliable optical card-scanning technology with a double-sided barcode reader to keep customers playing, while the attractive, back-lit reader unit creates an exciting multimedia reward environment with stunning, full-motion video and sound.

Benefits

Increase revenue

- ▶ Customers spend more up front
- ▶ Customers play more freely once value is on the card

Actionable Reports

- ▶ Extensive reporting by site or by attraction
- ▶ Receive revenue snapshots via email or access on your phone

Flexibility

- ▶ Set prices in smaller increments than a quarter
- ▶ Adjust prices automatically in peak/off peak times
- ▶ Entitlements let you give rights to certain attractions
- ▶ Packages can be loaded on cards with entitlements and cash
- ▶ Supports free play, time play and discounts
- ▶ Supports cashless food and beverage service at POS locations
- ▶ Cash controls are absolute - cash added is accounted for

IDEAL Self Service Kiosks

Kiosks makes your business more accommodating

IDEAL Kiosks sell cards and add value using cash, coin, or credit card, and register cards and show history. IDEAL kiosks increase sales while simultaneously reducing labour costs. Increase your income by offering customers a self serve, always available means of purchasing or recharging game cards. Theme your kiosk with custom graphics to compliment your facility's overall look and feel. It uses a large touch-screen color display for the best guest experience. It accepts bills, coins (optional), and credit cards. It even prints receipts.

IDEAL RFID Bands Radio Frequency Identification Device

Dramatically increase the efficiency and security of any type of amusement facility by taking advantage of the benefits that RFID can provide for cashless point-of-sale, vending, access control and other guest applications. The benefits of RFID are obvious: no card, ticket or wallet is necessary for customers to have full access to ALL of the amenities in your facility.

IDEAL RCM Redemption Center Manager

IDEAL's Redemption Center Manager (RCM) provides the industry's original and most robust redemption solution. Designed to increase your arcade revenue by dramatically improving service and throughput at the redemption counter, customers spend less time waiting and more time playing. IDEAL RCM moves customers quickly and efficiently through the redemption area. It reduces labour costs while eliminating long queues and confusion at the redemption counter, solving one of the biggest challenges in any Family Entertainment Center (FEC). IDEAL RCM has the most complete inventory software on the market along with advanced control features. In addition, IDEAL RCM helps operators supervise and manage receipts, internal transfers, redemption, refunding, and inventory reporting of inventory.

Benefits

- ▶ Maintains vendor information
- ▶ Automatically calculates points values
- ▶ Guests can bank unused points into their own personal savings account or receive a bar-coded voucher for future use

Control

- ▶ Integrates with scales and ticket eaters
- ▶ Electronic inventory and processing controls

Actionable Reports

- ▶ Provides re-order reports based on sales history
- ▶ Anyone can generate actionable reports

IDEAL POS

The most complete Amusement business Point-of-Sale system

IDEAL POS is the most user-friendly and versatile software programme in the amusement industry today. IDEAL pioneered the use of software to manage and operate Family Entertainment Centers (FEC) while developing and installing the first systems in 1983.

IDEAL POS is the foundation for your One IDEAL Solution™

To build your complete One IDEAL Solution™ to manage your entire facility, we offer the most comprehensive set of software modules (e.g. Party-Scheduling, Redemption, Debit Card System, Capacity Management, eCommerce, Bowling, PDA Apps, etc.) that integrate seamlessly with your IDEAL POS.
