SUZOHAPP shows the future at the Australasian Gaming Expo in Sydney

The Australasian Gaming Expo (AGE) is set to open its doors in Sydney, Australia, between the 15th and 17th of August and SUZOHAPP will be exhibiting on Stand 470. This year the Exhibition slogan is 'The Future is Here' which perfectly fits with SUZOHAPP's approach to business. At this year's AGE, SUZOHAPP will be showing how gaming manufacturers and operators can take the future of gaming into their own hands thanks to SUZOHAPP solutions.

SUZOHAPP provides the right solution for all applications in a hotel, club or casino. At this AGE show, SUZOHAPP will highlight the Loyalty Kiosk, integrated with a number of Loyalty system providers and POS companies, and the DisplayPro digital sign, featuring a 42" FHD commercial rated screen which is ideal for visual campaigns, replacing untidy posters and older back light sign boxes. The Dual Sided LCD Displays, perfect for table games applications and other casino uses, will also be in the spotlight.

The future of interactive table gaming is called InteractivePro™ Table, the solution which offers a unique 10-point multi-touch experience suitable for a wide range of applications, excellent for television, video and interactive entertainment in bars, casino floors, restaurants and lounges. SUZOHAPP will also show its wall mounted version, the BoothTV, which can host a number of different applications and be used by more than one person at a time to utilize or interact with a system, including video and browser applications.

There will be a strong array of cash handling technology on display in the SUZOHAPP booth. The Cash Redemption Terminal (CRT) enables players to cash out their gaming tickets without having to line up at a service counter. Visitors looking for a solution to store banknotes effectively and securely in a high volume retail environment will be impressed with the CashComplete™ SDS-30 and the SDS-35. These innovative Smart Deposit Systems represent a cost-effective method to secure notes and reduce shrinkage. The compact design enables them to be installed directly at the point of sale, such as at a live gaming table or bar or bottle shop cash register.

Visitors will have the opportunity to meet the Australian team and get the latest information on SUZOHAPP components, including the MFL note reader that ensures a very high acceptance rate, is TITO ready and capable of reading the new Australian banknotes. A special focus will be put on the SUZOHAPP range of VisionPro LCD slot machine screens which are available for most EGM models and in a range of sizes.

Finally, SUZOHAPP is the exclusive global partner for TransAct and will be exhibiting a wide array of printer solutions, including the latest Edge printer and the Epicentral system that enables operators to make full use of the printer information.

“We have decades of experience in serving the Australian and International gaming markets. We have many exciting offerings to present this year, so we invite all visitors to join us at booth 470. Whether operator or manufacturer, we have the solutions that will help you take the next step into the future of gaming,” comments Geoff McDowell, SUZOHAPP APA Managing Director.

About SUZOHAPP

SUZOHAPP is a technology company providing software and hardware for cash handling automation and self-service solutions to more than 25,000 customers throughout the world. SUZOHAPP's technology enables automation for customers operating in a variety of end markets, including retail, transportation, gaming, banking, vending and amusement.
