## SUZOHAPP to show off its Amusement solutions at EAS

### Launching the new ICX Active-9 coin counter/sorter

The Euro Attractions Show (EAS) is the premier event for the leisure, attractions, tourism, and entertainment industry, organized by the International Association of Amusement Parks and Attractions (IAAPA). This year the tradeshow will be taking place between the 26<sup>th</sup> and 28<sup>th</sup> of September in Berlin, Germany, and SUZOHAPP will be exhibiting at **Stand 310, Hall 23**.

At this year's EAS, great focus will be placed on the SCAN COIN back-office cash handling solutions. SUZOHAPP is inviting visitors to experience the **ICX Active-9**, the brand new strong and compact active coin sorter launched for the first time in the amusement market at EAS. This innovative product represents the new mid-range class of sorters and leverages best-in-class technology from the ICP Active-9 that has become the benchmark for high volume sorters. The SCAN COIN solutions on show also include the DTC-9, SC-360 and the SC-8220. Operators can choose the product that best serves their needs according to the amount of cash they have to handle.

Operators often need to offer their customers the possibility to change their money to play on the machines. SUZOHAPP is the expert in money changing technology with its Comestero solutions. At EAS, the Dual Coin PRO and the Twin Jolly PRO, the best-selling change machines in the industry, will be displayed.

Other solutions on exhibit include a selection from BilliardPRO and CompetitionPRO product lines. BilliardPRO covers a wide range of billiard and snooker requirements, including wooden cues, fiberglass cues, slip-on and screw-on tips, billiard and snooker balls, table cloths from a range of premium suppliers, scoreboards, triangles and even a UK-made dowsing iron. The CompetitionPRO brand consists of a large array of solutions and dedicated spare parts, including redemption tickets and dispensers, air hockey parts, mallets and basketballs.

During the three-day show, visitors will have the opportunity to hear about how they can offer coin acceptance on their amusement machines thanks to the Comestero RM5 Evolution and RM5 HD electronic coin validators, that offer excellent coin discrimination and market-leading anti-fraud technology. SUZOHAPP is also the expert

for coin pay-out devices and visitors can learn which version best fits their needs from the choice of Flow, Evolution and Cube hoppers.

The SUZOHAPP team looks forward to a very busy EAS. “It’s an exciting time for SUZOHAPP, our product offering for the amusement market has strongly grown over the past few years,” commented John Vallis, Sales Director for SUZOHAPP in the UK and Vice President of Amusement Sales EMEA. “We have a comprehensive product portfolio from spare parts to complete cash management solutions to meet all expectations of both manufacturers and operators. Stop by Stand 310 and join our experts to learn more about our latest innovations!”
