## SUZOHAPP to showcase cash handling solutions at the Coach & Bus show

The Coach & Bus show is the UK's premium coach, bus and accessibility exhibition, featuring the most innovative solutions for the UK market. The event will open its doors in Birmingham on October 4 & 5 and SUZOHAPP will be exhibiting at Stand #K33.

The Coach & Bus show is the perfect place to present best-in-class SCAN COIN solutions, such as the CDS-9 with note sidecar, suitable to manage the driver's coins, banknotes and tokens in a convenient, secure and efficient way. Data from field operation shows that the CDS-9 can increase profitability. For example, an operator running 100 drivers can gain 16 man-hours per day. The real-time online link enables operators to have immediate access to all information.

Operators looking for the latest technology in banknote counting will enjoy seeing the SCAN COIN K2. This high quality counter can process up to 1,000 notes a minute and can be programmed for up to 7 different currencies. It uses the very latest sensor technology to ensure that only valid notes are counted and the 4.3" display makes it simple to use. Any updates (e.g. new notes) are done simply via the USB port.

There will be a strong array of cash handling technology on display in the SUZOHAPP booth and visitors will also have the opportunity to learn more about the features and benefits of the CashComplete™ RCS-400 alongside the SDM-504S. This complete solution provides coin and note sorting and dispensing, as well as storage for pick-up by CIT companies. The RCS-400 offers a high recycling capacity of 16,000 coins for 8 denominations - it is the perfect solution to dispense floats and it can dole out up to 2,400 coins per minute into a cash drawer.

Manufacturers of ticketing machines can also find best-in-class cash handling equipment at the Coach & Bus show. SUZOHAPP will be showing its banknote recycler, Bill-to-Bill 300, which has the storage capacity to recycle up to 300 banknotes in three different denominations. Other components on exhibit include the Comestero RM5, which is the answer for electronic coin validation, coin hoppers and WGR coin carousel.

Steve Fitton, Sales Director of SCAN COIN UK, welcomes visitors, stating "We have decades of experience in serving the transportation market as SCAN COIN and now as SUZOHAPP, after having incorporated the SCAN COIN brand. We continue to provide our customers with the most advanced cash handling solutions and components. We invite show attendees to visit us to see how we can help their business grow."

### About SUZOHAPP

SUZOHAPP is a technology company providing software and hardware for cash handling automation and self-service solutions to more than 25,000 customers throughout the world. SUZOHAPP's technology enables automation for customers operating in a variety of end markets, including retail, transportation, gaming, banking, vending and amusement. SUZOHAPP's solutions include cash deposit, recycling, processing and payment systems as well as a broad range of self-service component technologies. The brands of SCAN COIN, Comestero and CashComplete™ are united under the SUZOHAPP Company.
