SUZOHAPP to support the gaming industry at G2E Las Vegas

The Global Gaming Expo (G2E) is the must-attend show in the gaming-entertainment industry. This year's event will be held between the 3rd and 5th of October at the Sands Expo Convention Center in Las Vegas. SUZOHAPP is committed to supporting the gaming industry and will be located at **booth #4233**.

At G2E, SUZOHAPP will proudly display its advanced solutions created and designed for OEMs and will show how tomorrow's ideas can be turned into today's reality. SUZOHAPP is always ready to meet the unique requirements of OEMs. Coin hoppers, toppers and push buttons are three examples where SUZOHAPP has applied its expertise to create industry-leading solutions. "This is what has made SUZOHAPP the company it is today," explains Ron Partridge, President of SUZOHAPP Americas. "We offer OEMs complete vertical integration from product design to production, and after-sales service and support. Our team has the development and manufacturing capabilities to produce innovative, OEM-specific solutions."

In the SUZOHAPP booth, significant focus will be placed on monitors and LCD's, featuring ELO touchscreens as well as SUZOHAPP's own Vision PRO monitors, including new LED edge-lit monitors and innovative dual-sided monitors. Visitors will have the opportunity to see a variety of buttons which suit any customer's needs. Mechanical Halo buttons, chrome buttons, TFT buttons, touch deck and Aura buttons will be showcased and the innovative Picture Key Technology (PKT) pushbutton solution will be in the spotlight.

SUZOHAPP provides the right solution for all casino applications, making it the perfect partner for gaming operators, too. SUZOHAPP offers a rich selection of components and at G2E will be showing joysticks, locks, speakers, video cards, LED Tube lights and new LED lighted USB Chargers. The top selling SH1950 Video Topper, now available in a backlit version, will be highlighted, as will TransAct printer solutions.

Furthermore, SUZOHAPP is an exclusive distributor of Optec Displays and G2E will be an excellent opportunity to learn more about the features of Optec's impressive new type of casino signage made from LED arrays that can be seen up to 300 feet away.

Cash management equipment is a prominent offering in the SUZOHAPP portfolio and, at G2E, SUZOHAPP's strong reputation for cash handling expertise will be on display. Featured will be the new CashComplete™ SDS-35, an innovative Smart Deposit Solution which represents a cost-effective method to secure notes and reduce labor time associated with counting notes. SUZOHAPP will also be showing the RCS-500 and RCS-600, Recycling Cash Solutions which transform cash handling into smart cash management. At the SUZOHAPP stand there will also be a wide array of cash handling components on display, including the reliable MFL banknote reader, the Bill-to-Bill banknote recycler, the Comestero coin validators and the coin pay-out devices (Evolution, Cube and Flow hoppers).

“The G2E promises to be a great event again, giving us the chance to show our professional and dedicated approach to the industry,” concludes Ron Partridge. “Our goal is to support gaming OEMs and help casino and route operators in their day-to-day business. The SUZOHAPP team looks forward to seeing you at the G2E Las Vegas at booth #4233.”

About SUZOHAPP

SUZOHAPP is a technology company providing software and hardware for cash handling automation and self-service solutions to more than 25,000 customers throughout the world.
