SUZOHAPP brings new innovations to ACOS

SUZOHAPP will be exhibiting at the Autumn Coin-Op Show (ACOS) on October 11 & 12 in London at the Olympia Conference Centre (Level 3). The SUZOHAPP team is looking forward to welcoming visitors and showcasing a selection of its vast product range.

One of the biggest highlights will be the **SCAN COIN ICX Active-9**, a brand new coin sorter which has 9 coin outlets and a reject outlet with a count speed of 2700 coins per minute. This innovative product represents the new mid-range class of sorters and leverages best-in-class technology from the ICP Active-9 that has become the benchmark for high volume sorters.

Visitors will also have the opportunity to see another new solution at the SUZOHAPP booth – namely the **PayHub Kiosk**. This is a TITO Redemption Kiosk equipped with a large 21” touchscreen for user and staff interaction. PayHub is very secure, thanks to its 2mm steel cabinet, removable lockable cassettes, twin multipoint locking doors and secure programmable and updatable banknote reader. Customers can load cash at the kiosk and receive a TITO ticket to play on machines. They can also purchase a TITO ticket via the Chip & Pin terminal using a debit card or via the SEQR payment app on their phone. SUZOHAPP will also be showcasing the Live Ticket + TITO System from ITL for the Amusement market.

As the expert in money changing technology, SUZOHAPP will also showcase the best selling Comestero **change machines** (Dual Coin PRO and Easy Pro). Furthermore, a wide selection of pure Amusement solutions will be displayed at ACOS, such as the **BilliardPRO** and **CompetitionPRO** product lines. BilliardPRO covers a rich range of billiard and snooker requirements, including wooden cues, fiberglass cues, slip-on and screw-on tips, billiard and snooker balls, table cloths from a range of premium suppliers, scoreboards, triangles and even a UK-made dowsing iron. The CompetitionPRO brand consists of a large array of solutions and dedicated spare parts, including redemption tickets and dispensers, air hockey parts, mallets and basketballs.

John Vallis, Sales Director for SUZOHAPP in the UK and Vice President of Amusement Sales EMEA sends out a warm welcome, stating, “The ACOS is ideal for our industry. It’s a great opportunity to network and find out the latest trends and innovations. This year we are particularly proud to introduce to the UK market the new ICX

Active-9 that we developed through listening to our customers and adapting to match their needs. We invite attendees to visit our booth to see a live demonstration of our new innovations.”

About SUZOHAPP

SUZOHAPP is a technology company providing software and hardware for cash handling automation and self-service solutions to more than 25,000 customers throughout the world. SUZOHAPP’s technology enables automation for customers operating in a variety of end markets, including retail, transportation, gaming, banking, vending and amusement.
