## SUZOHAPP to exhibit at Vendex North in Manchester

### Looking back on a successful Vendiberica

SUZOHAPP took a prominent position at Vendiberica in Madrid between the 18th and 20th of October. “Vendiberica was an excellent show! The market is rewarding our innovative approach and strong customer support,” stated Luis Fernandez, SUZOHAPP Sales Manager in Spain.

Next week, SUZOHAPP hopes to recreate their strong performance at Vendiberica by exhibiting at Vendex North, the premier event for the UK vending industry that will take place in Manchester on 7th November.

For coin recycling technology, SUZOHAPP will display its 6-tube Currenza C<sup>2</sup>, the only solution in the market with Payout Redundancy Protection (PRP). The PRP technology incorporates 3 separate motors to reduce downtime and guarantee continued coin pay-out security. For applications where only coin-in is required, the Comestero RM5 electronic coin validator is the ideal solution, with its over one and a half million units sold worldwide.

For cashless payment technology, the WorldKey solutions will be the biggest highlight on the stand. WorldKey is the most complete cashless range in the market thanks to 5 different models to satisfy the specific needs of operators and 3 reading heads able to accept keys, cards, tags and stickers in a secure and easy way. Visitors will learn more about the WorldKey Loyalty platform, an on-line solution that allows operators to communicate directly with end users and develop loyalty programs. Furthermore, SUZOHAPP will showcase the P68 cashless payment terminal that has been specifically developed for the vending industry. The P6 series is fully compatible with the WorldKey cashless range and promises faster transactions of between only 3 to 5 seconds. Payment can be made using contactless, chip or magnetic stripe, as well as through a smartphone using Apple Pay or Samsung Pay.

Finally, a significant focus will be put on the SCAN COIN back-office solutions, including the DTC-9 coin sorter and the SC-8220 multi-currency banknote counter.

“We appreciate the wave of great feedback from the Spanish tradeshow! We are looking forward to welcoming all Vendex attendees at Booth F15,” commented Nick Norris, Sales and Technical Manager UK and Ireland at SUZOHAPP.

### About SUZOHAPP

SUZOHAPP is a technology company providing software and hardware for cash handling automation and self-service solutions to more than 25,000 customers throughout the world. SUZOHAPP's technology enables automation for customers operating in a variety of end markets, including retail, transportation, gaming, banking, vending and amusement.
