## SUZOHAPP to present innovations in cash management at the National Restaurant Association show 2018

SUZOHAPP is excited to participate again at the National Restaurant Association Show, the platform to discover, learn, connect, inspire and gain the tools needed to innovate and thrive in the international restaurant marketplace. The tradeshow is set to open its doors in Chicago, Illinois, between the 19th and 22nd of May. SUZOHAPP will be exhibiting in the Technology area at Stand #7075.

Restaurants spend a significant amount of time dealing with cash. Relying on manual counting and processing of cash can be difficult and cost intensive. New cash management technology from SUZOHAPP offers an immediate solution to improve cash flow, thus reducing handling costs, increasing speed and accuracy, and delivering a rapid and significant return on investment.

At this year's NRA show, SUZOHAPP will showcase the highlights from its CashComplete™ product range which represents the ideal solution to transform your cash handling into a completely automated process. SUZOHAPP experts will be on hand to show customers the complete range of CashComplete™ units. CashComplete™ Connect is a revolutionary platform which allows customers to fully monitor their cash and generate accurate reporting for complete visibility of the cash cycle. The combination of this software intelligence and advanced processing technologies will deliver better customer service and lead to a boost in profits.

In the SUZOHAPP booth, great focus will be placed on presenting the new CashComplete™ SDS-35, a Smart Deposit Solution which validates, stores and secures banknotes effectively in high volume retail and POS environments. The SDS-35 reduces shrinkage and the number of touch points in the processing of banknotes.

Additional CashComplete™ solutions on display will be the SDS-600 & SDS-750, versatile, smart deposit systems that provide a cost-effective method of securing bank notes while improving accuracy and cash visibility. The SDS-600 has the capacity to handle the depositing needs of an entire franchise, but comes with a small foot print. The SDS-750 is known for its high speed, larger capacity, and long-term reliability for any application where securing large volumes of notes is required.

At the SUZOHAPP booth, visitors will also learn more about the CashComplete™ Cash Recycling Solutions: RCS-100, RCS-500 & RCS-600. These Solutions allow customers to take control of their cash management in all areas of their business, from internal cash handling to CIT operations. SUZOHAPP Recyclers coupled with CashComplete Connect software will automate your cash handling, allowing you to retrieve real-time cash flow data via your computer or mobile device, wherever and whenever you need it.

"We are excited to participate for the third year in a row at the NRA show," stated Ron Partridge, President of SUZOHAPP Americas. "Please visit us and discover how our solutions help you automate all cash processing, improving efficiency and productivity and maximizing your return on investment."

## About SUZOHAPP

SUZOHAPP is a technology company providing software and hardware for cash handling automation and self-service solutions to more than 25,000 customers throughout the world. SUZOHAPP's technology enables automation for customers operating in a variety of end markets, including retail, transportation, gaming, banking, vending and amusement.
