SUZOHAPP to showcase best-in-class solutions for self-service car wash stations at UNITI Expo

SUZOHAPP will present its state-of-the-art product range at the upcoming UNITI Expo that will take place between the 15th and 17th of May in Stuttgart, Germany. This biennial event is the leading German trade fair for the retail petroleum and car wash industries. SUZOHAPP will exhibit at **Stand 3E61-63**, displaying a wide array of equipment for self-service car wash stations.

At this year's event, the focus will be placed on the innovative PRO product line of Comestero starters and changers, designed for maximum performance and extreme reliability. Based on an advanced PC architecture, the PRO solutions offer a user-friendly experience thanks to the 5" or 10" touchscreens and the vocal guide. Furthermore, they are equipped with the latest generation payment systems and provide a wide configuration choice to personalize your machine.

The biggest highlights at the SUZOHAPP booth will be the Multi PRO and the Pit PRO. Multi PRO is an outdoor money changer and starter for car wash portals, which allows the user to quickly manage multiple tasks, such as starting the programs, recharging cards and keys, changing money, buying tokens and distributing cards or keys.

Designed to be resistant to dust, water splashes and sprayed chemicals, the Pit PRO manages up to 8 different washing programs, changes money or tokens and recharges keys or cards.

Visitors looking for the latest technology in coin validation and recycling will enjoy seeing the Comestero RM5 coin validators and the Currenza C² coin recycler. SUZOHAPP will also be showcasing a selection of hoppers and its complete WorldKey product line that is the most versatile and reliable cashless range in the market.

"UNITI Expo promises to be an exciting show!" commented Torben Dankers, Sales Manager for SUZOHAPP's Car wash team in Germany. "We have decades of experience in payment technology – whether as individual components or complete solutions. We invite all visitors to join us and see how to grow their business."

"We look forward to welcoming visitors to our Stand 3E61-63," concluded Francois Profit, Executive Vice President Automated Services EMEA. "Visit us to discuss your specific requirements and discover the right solution for your business."

About SUZOHAPP

SUZOHAPP is a technology company providing software and hardware for cash handling automation and self-service solutions to more than 25,000 customers throughout the world. SUZOHAPP's technology enables automation for customers operating in a variety of end markets, including retail, transportation, gaming, banking, vending and amusement.
