## SUZOHAPP to highlight its latest Cash Management innovations at Transports Publics 2018

Transports Publics, the European Mobility Exhibition, is the not-to-be missed biennial exhibition for all the key players in public transport and sustainable mobility from across Europe. The event will open its doors in Paris, France from June 12<sup>th</sup> through June 14<sup>th</sup> and SUZOHAPP will be exhibiting at Stand K31, presenting a strong array of cash handling technology to the transportation industry.

At this year's event, SUZOHAPP will showcase the highlights from its CashComplete™ product range which represent the ideal solution to transform users' cash handling into a completely automated process, delivering several advantages, such as reducing working capital, improving productivity and increasing efficiency.

Visitors will have the opportunity to learn more about the features and benefits of the new CashComplete™ **RCS-400 2.2**, a Recycling Cash Solution which streamlines cash handling with automated till float creation, coin recycling, change facilities, and end of shift deposit and reconciliation. The new 2.2 version comes with a flexible system for different tills. Attendees will also enjoy seeing a demo of **CashComplete™ Connect** software, a revolutionary platform which allows users to fully monitor their cash and generate accurate reporting for complete visibility of the cash cycle.

An additional CashComplete™ product showcased at the SUZOHAPP stand will be the **SDS-750**, a Smart Deposit Solution which provides a cost-effective method of securing banknotes while improving accuracy and cash visibility.

Furthermore, the French event will be the perfect opportunity to present advanced SCAN COIN solutions, such as the **CDS-9**, suitable to manage the driver's coins, banknotes and tokens in a convenient and secure way, and the **DTC-9** coin sorter, which offers outstanding accuracy through unique sensor technology. The Comestero **Changeuro Multicoin** change machine will be displayed as well.

Finally, at Transports Publics, manufacturers will discover a rich selection of cash handling components. One of the biggest highlights will be the innovative **ICS** (Intelligent Coin System), a new coin handling device that enables payout of all coin denominations. The ICS represents eight hoppers and a sorter, all in one product – this is a real step ahead in multi-denomination coin pay-out technology. SUZOHAPP will also show the Bill-to-Bill 300 banknote recycler, the Comestero RM5 coin validators and the WGR coin carousel.

Vincent Saubaber, Executive VP of Transportation Sales EMEA, welcomes visitors, stating "We have decades of experience in serving the transportation market as SCAN COIN and now as SUZOHAPP, after having incorporated the SCAN COIN brand. We continue to provide our customers with the most advanced cash handling technology. We invite show attendees to visit us to see how we can help their business grow."

## About SUZOHAPP

SUZOHAPP is a technology company providing software and hardware for cash handling automation and self-service solutions to more than 25,000 customers throughout the world. SUZOHAPP's technology enables automation for customers operating in a variety of end markets, including retail, transportation, gaming, banking, vending and amusement.
