## SUZOHAPP to participate at EAG 2019

OUD-BEIJERLAND, THE NETHERLANDS January 9, 2019 – SUZOHAPP – a leading technology company with over 50,000 gaming, amusement, sports betting, lottery and bingo products for casino operators and gaming OEMs – will be exhibiting at the EAG show. Owned by Bacta, the trade association for the amusement and gaming machine industry in the UK, EAG offers an outstanding opportunity to network with amusement and leisure professionals, share information and experience the very latest product launches and innovations.

Taking place in London, UK from January 15-17, 2019, EAG will be celebrating its 10th anniversary. SUZOHAPP will be exhibiting at booth #405 and will be displaying the highlights from its portfolio of world-class products, including individual components as well as complete solutions.

“The EAG is a perfect networking event, giving us the chance to show our innovative approach to the industry,” says John Vallis, Vice President of Gaming and Amusement EMEA. “We work closely with both manufacturers and operators and support them in finding the right solutions to meet their unique requirements. We provide them with every single component they need, significantly simplifying their sourcing.”

At this year’s EAG, SUZOHAPP will feature a wide range of components for amusement and gaming machines. This includes electronic coin validators, coin hoppers, pushbuttons, joysticks, power supplies, speakers and chairs, plus a rich selection from the BilliardPRO and CompetitionPRO product lines. As a major innovation, SUZOHAPP will be showcasing its new E-PRL electronic reprogrammable lock, a patented high-tech locking system which is the ideal solution for access identification and control, offering more than 10 billion possible combinations. The new Bluetooth model enables operators to have online control of the lock from a remote location, even from a smartphone or a tablet.

Additionally, SUZOHAPP will demonstrate its ability to be the perfect supplier of complete cash handling solutions. From change machines to back-office coin and note counters/sorters, SUZOHAPP can offer the ideal cash management solution to professionals operating any of these venues: amusement and entertainment centres, arcades, bingo, bowling and casinos. Highlights include the new SCAN COIN ICX Active-9 coin sorter and the IDEAL cashless solution, which will be available to demo at the SUZOHAPP booth.

“We are excited to be exhibiting again at EAG. We are expecting a lot of interest in our latest innovations,” said Mr. Vallis. “Please visit us at booth #405 to learn more about our advanced components and solutions.”

## About SUZOHAPP

SUZOHAPP is a technology company providing software and hardware for cash handling automation and self-service solutions to more than 25,000 customers throughout the world.
