

G2E ASIA PREVIEW

SUZOHAPP the one-stop shop for all

They really do have it all. For proof, see **booth 1125**

SUZOHAPP will be exhibiting at G2E Asia, the industry's one-stop sourcing platform for gaming and entertainment products for forward-thinking casino operators in Asia. SUZOHAPP is ready to welcome visitors to booth 1125 to show a variety of unique components and solutions that meet the demands of various gaming market segments.

One of the main highlights will be the new Picture Key Technology (PKT) button panel. SUZOHAPP is a licensed provider of PKT, which enables dynamic content with a tactile surface. Through the use of a bonded fibreoptic image conduit, SUZOHAPP creates assemblies that can display dynamic video content or provide self-labelling keys, all while providing a robust assembly and 100% consistent colouring.

The Loyalty Kiosk, integrated with a number of loyalty system providers and POS companies, will also be a highlight. This solution is available in two configurations: a freestanding cabinet for foyer use, or a countertop for bar or counter use with an external ticket printer. G2E Asia will be an excellent opportunity to learn more about the features of the 27" dual-sided LCD display. With its stylish design, it is a perfect way to share content, catching customers coming and going.

SUZOHAPP will also be showing the BoothTV that has already achieved great success in many casino in the US, and the DisplayPRO, featuring a 42" HD screen ideal for visual campaigns. This solution has

been designed specifically for flexible end-of-bank signage application in a gaming venue.

As the global partner for Elo and TransActs, great focus will be placed on the Elo solutions, such as the 23.8" and 21.5" LCD open-frame touchscreens, and on the award-winning EPIC 950 and EPIC 880 printers.

SUZOHAPP's strong reputation for cash handling and expertise will be clear thanks to the CashComplete SDS-25 and SDS-30, the innovative Smart Deposit Solutions, and a selection of SCAN COIN desktop products, including the best-in-class SC8220 note counter. The flexible and compact VC100D currency counter will also be displayed.

Other solutions on show include the latest SH1950 video toppler and the Comestero RM5 HD electronic coin validator that offers excellent coin discrimination and market-leading anti-fraud technology. Finally, SUZOHAPP will be showing a selection of high-performance components such as the Charge N Play USB charger, allowing players to recharge their smartphones while enjoying their gaming entertainment.

Geoff McDowell, SUZOHAPP APA Managing Director, sends out a warm welcome to guests at G2E Asia: "We are focused on quality, innovation and technology, and our new logo perfectly portrays our company strategy and identity. SUZOHAPP is the one-stop shop for both operators and manufacturers – we can meet all your needs. Come visit us and discover how our solutions can support and improve your business!"
