ICE TOTALLY GAMING 2017

SuzoHapp readies vast array of products and solutions for ICE 2017

SUZOHAPP – as the industry's greatest supplier of cash handling components and solutions in the global gaming industry – focuses to cater its offer individually to OEMs and operators

Operators can look to source complete solutions as well as their specific component requirements. The component and cash handling solutions will be presented in greater detail in the OEM section of the stand.

Examples of key solutions include:

- ComesteroChangers range – the Swing Next, Dual Coin Pro, Jolly PRO and Changeuro Multicoins will be on display
- SCAN COIN products – This SUZOHAPP company offers vast experience in the field of coin and banknote counting and sorting. The SCAN COIN machines vary depending on requirements. The coin model DTC9 and banknote model SC 8220 have already established themselves well in the gaming industry
- New for the European market – SUZOHAPP will launch the Cash Complete product range, unique smart solutions able to dramatically improve business with cash management intelligence and enable people to gain a quick return on investment. The new range comprised of 3 product lines – SDS, SPS and RCS – and also includes the unique CashComplete software platform that is the ultimate solution for superior financial and operational control of cash.
- A further premiere for ICE – Cash Redemption Terminal, a complete redemption terminal for cards or tickets. Cleverly designed so that access for service requirements and cash clearance are separated, the CRT includes all the payment methods to ensure that customers have entire redemption possibilities – including barcode reader, TiTo, banknote and coin validation and pay-out.

The vast component range includes:

- Displays and touchscreens: As the global partner for Elo Touch, great focus will be placed on the Elo Touch solutions such as the Elo 90 series open frame monitors, touch screen desktops and interactive digital signage. VisionPro monitors with various touch and non-touch

monitors, as well as LCD button decks will also be shown.

- Printers: Here the name of the game is TransAct. The new Epic Edge printer will be shown for the first time at ICE that represents the next level in printing technology, including its new 300 DPI print resolution. Further TransAct printers on display will be the Epic 950, the Epic 880 and the Epic 440. A great emphasis will be put on the Epicentral, as it is the gaming industry's only enterprise-level promotion and bonusing software that targets customers real time and has proved to increase revenue significantly.

- Banknote / bill validators and recyclers: The SUZOHAPP MFL is the all-purpose slot machine bill reader and the SUZOHAPP Bill-to-Bill offers the ultimate solution in bill recycling. The SC Advance from CPI completes the focus on bill validation technology.

- Coin-handling components: SUZOHAPP offers yet again proven in-house solutions. The Comestero RM5 HD electronic coin validator is the reference in its field. For hoppers, look no further than SUZOHAPP with the purpose-built solutions such as Evolution, Cube and Flow hopper
- Toppers: SUZOHAPP is the topper company in the industry. The latest SHI950 video topper is the best-selling topper that was launched only last year.

- Pushbuttons: SUZOHAPP continues to bring innovation to this product segment as well.

The new Picture Key Technology (PKT) represents the future for buttons. The new single-panel system can feature a variety of button configurations that displays any content from underneath the surface on the glass push buttons. Further pushbuttons that will be on display include LCD and chrome luminescent range

- Locks: Locks are essential for all gaming machines and that is why SUZOHAPP offers such a wide variety, including the range from Assa Desmo, Venia, Xlocks, STC and the new Matrix range
- Cabinet parts: Here SUZOHAPP offers all the components required to complete a gaming machine, including power supplies, speakers, USB chargers and coin entries
- Mechanical devices: handle mechanisms and the Flip Card unit which belong to the many innovations from SUZOHAPP.

"We continue to invest to lead the market in the world of components and solutions. We have kept our stand position and stand design. Segmenting the stand into components and solutions alongside the sports bar made it much clearer and simpler for visitors to find what they were looking for. The ICE is the ideal opportunity to bring our international team together and show just how committed we are to the gaming industry around the world," said Marcel Oelen, MD SUZOHAPP EMEA. N4-110 at the ICE.
