

ATM award for SuzoHapp

SUZOHAPP received the Silver Innovation Award for its Scan Coin cash recycling technology at the recent ATM and Cash Innovation Conference in London, UK.

The event celebrated the 50th anniversary of the ATM industry, which has revolutionised financial services, access to cash and human spending habits.

“We are honoured to receive this prestigious award as recognition of our ongoing dedication and commitment to the industry,” said Walter Rahe, vice president of sales banking EMEA at SuzoHapp.

“This award is an amazing achievement for us. We are always focused on bringing innovations to the industry and our recycling cash solutions ensure a quick return on investment through improved cash Scan Coin UK.

At the event, a selection of Scan Coin cash processing solutions and their sophisticated software platform were displayed. The biggest highlight was the innovative CDS-9R, the world’s first self-service coin recycler for public environments.
